§ 1 Wertpapierrecht

(1) Wertpapierrecht der Wertpapiergläubiger

Die Emittentin gewährt hiermit dem Wertpapiergläubiger (§ 4(2)) von je einem Wertpapier bezogen auf den Referenz-Portfolio-Level nach Maßgabe dieser Bedingungen das Recht (das "**Wertpapierrecht**"), den Auszahlungsbetrag (§ 1(2)), gegebenenfalls auf zwei Dezimalstellen kaufmännisch gerundet, zu erhalten.

(2) Auszahlungsbetrag

Der "**Auszahlungsbetrag**" je Wertpapier wird in Übereinstimmung mit folgender Formel berechnet:

$$CA \times \text{MAX} \left(\text{Mindestbetrag}, \frac{\text{Finales Referenz-Portfolio-Level}}{\text{Anfängliches Referenz-Portfolio-Level}} \right)$$

Wobei gilt:

"**CA**" entspricht dem Berechnungsbetrag.

"**Mindestbetrag**" entspricht 2 %.

Das "**Finale Referenz-Portfolio-Level**" bezeichnet, vorbehaltlich einer Marktstörung oder einer Auflösungsstörung, den Wert des Referenz-Portfolios, wie er für einen Bewertungstag von der Berechnungsstelle für die Wertpapiere berechnet wird; dabei entspricht der maßgebliche Wert des Referenz-Portfolios

Where:

"**CA**" equals the Calculation Amount.

"**Minimum Amount**" equals 2 %.

The "**Final Reference Portfolio Level**" means, subject to a Market Disruption or an Unwind Disruption, the value of the Reference Portfolio as determined by the Calculation Agent in relation to a Valuation Date, whereby the relevant value of the Reference Portfolio shall be

The investment universes described below shall together be referred to as the "**Investment Universes**". In respect of the Investment Universes, all securities, assets, exposures or contracts which are eligible for inclusion in the Reference Portfolio shall collectively be referred to as "**Eligible Constituents**".

The Reference Portfolio Advisor may, from time to time, request an adjustment to, or expansion of, the Investment Universes below. Such adjustment or expansion, if accepted by the Calculation Agent and/or the Issuer, will result in the Investment Universes being revised accordingly.

(2.1) **Stock Constituents**

The Reference Portfolio may reference as Stock Constituents long positions in stocks from the universe described below (the "**Stock Investment Universe**").

Only stocks listed in Sweden, Norway, Finland, Denmark, United Kingdom, France, Germany, Italy, Spain, Portugal, Austria, Switzerland, Belgium, Netherlands and Ireland at the time of a Rebalancing which have a minimum market capitalisation of EUR 200,000,000 and a 30-day average daily trading volume greater than EUR 350,000 (converted into EUR, where applicable, at the then prevailing exchange rate, as determined by the Calculation Agent) may be included in the Stock Investment Universe, subject to the Issuer's ability to access and offer such stocks at a commercially reasonable cost to the Issuer, as determined by the Calculation Agent in its reasonable discretion.

If a Stock Constituent comprises a long position in a stock from the Stock Investment Universe, a notional amount reflecting net dividends on such Stock Constituent (such amount, a "**Notional Stock Constituent Distribution**") will be notionally reinvested into the respective Stock Constituent on the ex-dividend date of that Stock Constituent.

Where the date on which the dividend amount is declared for a Stock Constituent is after the ex-dividend date of the respective Stock Constituent, a notional amount reflecting the estimated net dividend shall be determined by the Calculation Agent in its sole and reasonable discretion.

Should an event arise where the declared or otherwise estimated dividend on a Stock Constituent is revised following the ex-dividend date of such Stock Constituent, the Calculation Agent shall:

- (a) if the issuer of such Stock Constituent is incorporated in South Korea, Japan or Russia, make no adjustment to the Notional Stock Constituent Distribution in connection with such dividend following the ex-dividend date, *provided that* if such dividend is revised to zero (0) the Calculation Agent shall, instead, make any necessary (including, without limitation, retrospective) adjustments to the Notional Stock Constituent Distribution in connection with such dividend following the ex-dividend date; and
- (b) if the issuer of such Stock Constituent is not incorporated in South Korea, Japan or Russia, make any necessary (including, without limitation, retrospective) adjustments to the Notional Stock Constituent Distribution in connection with such dividend following the ex-dividend date.

If the Calculation Agent adjusts retrospectively any Notional Stock Constituent Distribution in accordance with the preceding paragraph, the Calculation Agent shall be entitled to make any related consequential (including, without limitation, retrospective) adjustments to the Reference Portfolio Level in its reasonable discretion.

(2.2) **Section 871(m) Withholding**

In respect of any Stock Constituent (each, a "**Relevant Constituent**") which references U.S. equity securities, for the purposes of determining the amount of any Notional Stock Constituent Distribution (the "**Relevant Notional Distribution**"), the Calculation Agent, acting reasonably, shall reduce the amount of such Relevant Notional Distribution so allocated by the 30 % withholding tax imposed by Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended.

(2.3) **Cash Position**

The Reference Portfolio will also contain a Cash Position as a Reference Portfolio Component, which represents a notional holding of a cash account denominated in the Redemption Currency and accruing interest at the prevailing reference rate (the "**Reference Rate**"), which can be negative from time to time.

The Reference Rate is observed on every Weekday and shall be equal to the SEK Forward Implied 1 Week Rate (Bloomberg Page: SEK11W <Curncy>) (the "**Relevant Screen Page**") plus a spread (the "**Spread**") (each a "**Reference Rate Component**").

In respect of a positive Cash Position, the Spread shall be 0.00 % and in respect of a negative Cash Position, the Spread shall be 0.50 %.

If the Relevant Screen Page does not display the respective Reference Rate Component, the corresponding Reference Rate Component shall be determined with reference to an equivalent reference rate on the corresponding page of another financial information service.

Upon the occurrence of a Reference Rate Adjustment Event, the Calculation Agent may make adjustments in its sole discretion to (i) any or all of the Reference Rate Components (including for the avoidance of doubt, the Spread), and (ii) the then prevailing formula for determining the Reference Rate, and shall determine the effective date of such adjustment(s).

Further, on each day when a Reference Portfolio Advisor Performance Fee, a Reference Portfolio Fee and/or an Adjustment Fee becomes due as described in Section (5), the value of the Cash Position will be reduced as described in Section (5).

(2.4) **Currency Hedging**

At any time, the Reference Portfolio may comprise one or more Reference Portfolio Components denominated in a currency other than the Redemption Currency (such Reference Portfolio Components, the "**Non-Redemption Currency Components**").

There is no hedging of currency exchange risk in respect of any Non-Redemption Currency Components comprised in the Reference Portfolio.

(2.5) **Investment Restrictions**

Reference Portfolio Constituents may be selected by the Reference Portfolio Advisor for notional purchase or, as the case may be, sale or unwind in accordance with the following investment restrictions (the "**Investment Restrictions**").

For the avoidance of doubt: The responsibility and legal duty that the Reference Portfolio complies with the Investment Restrictions is solely with the Reference Portfolio Advisor.

(2.5.1) **Portfolio Investment Restrictions**

The sum of the Exposures of all Reference Portfolio Constituents in respect of which the Reference Portfolio has long positions is capped at a maximum of 100 % (the "**Long Leverage Threshold**") at all times during the lifetime of the Securities.

(2.5.2) **Constituent Investment Restrictions**

- (a) The Weight of the Cash Position shall at all times be greater than -5 %.
- (b) The absolute value of the Exposure of each Stock Constituent is capped at a maximum of 20 %.

(2.5.3) **Consequences of Investment Restrictions Breaches**

In case any of the above Investment Restrictions are breached at any time during the life of the Securities, the Issuer has the right, but is not obliged, to notionally unwind Reference Portfolio Constituents in its reasonable discretion until no such breach exists. In respect of such notional unwind, a notional credit or debit, as the case may be, shall be made to the Cash Position corresponding to the Notional Net Unwind Value of such Reference Portfolio Constituents with effect from the date of the notional unwind.

(2.6) **Additional Definitions**

"**Exposure**" means, with respect to any Reference Portfolio Constituent, on the Fixing Date or on any Reference Portfolio Calculation Date thereafter, the notional exposure in the Redemption Currency of such Reference Portfolio Constituent, as converted into the Redemption Currency, where such Reference Portfolio Constituent is not denominated in the Redemption Currency, at the then prevailing currency exchange rate, divided by the Reference Portfolio Level, both as determined by the Calculation Agent in its reasonable discretion.

"**Reference Rate Adjustment Event**" means that a Reference Rate Component (i) has ceased to be, or will cease to be, available, (ii) is one which a relevant regulatory supervisor has determined is no longer, or as of a specified

future date will no longer be, representative of the underlying market and economic reality that such rate is intended to measure, or (iii) is no longer suitable for the purpose of determining the Reference Rate taking into account the accrual rate or cost of financing incurred or charged by the Issuer, in each case, as determined by the Calculation Agent in its sole discretion.

"Weight" means, with respect to any Reference Portfolio Component, on the Fixing Date or on any Reference Portfolio Calculation Date thereafter, the notional value of such Reference Portfolio Component, as converted into the Redemption Currency at the then prevailing currency exchange rate, if such Reference Portfolio Component is not denominated in the Redemption Currency, divided by the Reference Portfolio Level, as determined by the Calculation Agent in its reasonable discretion.

(3) Initial Composition of the Reference Portfolio

The Reference Portfolio will be created on the Fixing Date with an initial value equal to the Initial Reference Portfolio Level. On the Fixing Date, the Reference Portfolio Components will be as set out in accordance with the below indicative parameters.

	Bloomberg Ticker	Name	Reference Portfolio Component	Base Currency	Price	Units	Weight
<i>- all content indicative only -</i>							
1	N/A	N/A	Cash Position	SEK	N/A	N/A	100 %

The current composition of the Reference Portfolio (including the respective Weights) may be requested free of charge at any time from UBS Europe SE, P.O. BOX 1722, S-111 87 Stockholm, Sweden or via e-mail (ol-nordic-sp@ubs.com).

(4) Rebalancings of the Reference Portfolio

- (4.1) A Rebalancing may be initiated by the Reference Portfolio Advisor on any Banking Day following the Fixing Date, effective as of the immediately following Banking Day (such day, a **"Reference Portfolio Adjustment Date"**), provided that the Reference Portfolio Advisor shall not initiate a Rebalancing if the Reference Portfolio Advisor determines, acting reasonably, that, on the Reference Portfolio Adjustment Date in respect of such Rebalancing, a Market Disruption (which includes an FX Disruption Event) would occur or be subsisting in respect of any Reference Portfolio Constituent being the subject of such Rebalancing.

The expected number of Rebalancings in any such 12 month period shall be less than 52.

For the avoidance of doubt, a single Rebalancing may comprise of a change to more than one Reference Portfolio Constituent, and therefore a change in the position of multiple Reference Portfolio Constituents which were the result of a single Rebalancing instruction by the Reference Portfolio Advisor shall be considered as one Rebalancing.

- (4.2) On any Banking Day, the Reference Portfolio Advisor is entitled to, as it deems appropriate in its reasonable discretion, give notice to the Calculation Agent of its intention to initiate a Rebalancing on such day (a **"Rebalancing Notice"**), and effective on the Reference Portfolio Adjustment Date.

Save as the Calculation Agent may otherwise agree, a Rebalancing Notice shall not be effective if, at the time of such Rebalancing Notice is received, a Rebalancing in respect of any Rebalancing Notice received earlier on such Banking Day has not yet been completed or otherwise rejected. For the purposes hereof, a Rebalancing is deemed completed upon notification by the Calculation Agent to the Reference Portfolio Advisor, with respect to the relevant Rebalancing, of the relevant Notional Net Acquisition Value of each Eligible Constituent notionally included in the Reference Portfolio, the Notional Net Unwind Value(s) of each Reference Portfolio Constituent notionally removed from the Reference Portfolio and the Exposure of each applicable Reference Portfolio Constituent notionally comprised in the Reference Portfolio following the relevant Rebalancing.

- (4.3) Should the Calculation Agent determine that a Rebalancing shall be effective over multiple days (for example in the scenario where some Reference Portfolio Constituents or Eligible Constituents, as the

case may be, referenced in a Rebalancing may be notionally acquired or unwound on a Constituents Business Day and other Reference Portfolio Constituents or Eligible Constituents, as the case may be, referenced in the same Rebalancing may be notionally acquired or unwound on a subsequent (immediately following or otherwise) Constituents Business Day), then despite the effective date covering multiple Constituents Business Days, it shall be treated as a single Rebalancing.

- (4.4) The Calculation Agent will determine the exact number of Reference Portfolio Constituents based on prevailing market conditions, including exchange rates when relevant, in its reasonable discretion. Such number may deviate from the target Weight or Exposure recommended by the Reference Portfolio Advisor.
- (4.5) On each Reference Portfolio Adjustment Date, notional debits and credits to the Cash Position shall be made as follows
 - (a) In respect of the notional acquisition of exposure to a Reference Portfolio Constituent, a notional debit or credit, as the case may be, shall be made to the Cash Position corresponding to the Notional Net Acquisition Value of such Reference Portfolio Constituent, with effect from the date of the notional acquisition of exposure to such Reference Portfolio Constituent; and
 - (b) In respect of the notional unwind of exposure to a Reference Portfolio Constituent, a notional debit or credit, as the case may be shall be made to the Cash Position corresponding to the Notional Net Unwind Value of such Reference Portfolio Constituent, with effect from the date of the notional unwind of exposure to such Reference Portfolio Constituent.

For the avoidance of doubt, if the notional acquisition or unwind of exposure to a Reference Portfolio Constituent results in the notional credit or debit to the Cash Position and such Reference Portfolio Constituent is not denominated in the Redemption Currency, then the Calculation Agent will apply the prevailing currency exchange rate, as determined in its reasonable discretion determine the value of the notional credit or debit to the Cash Position.

- (4.6) The Calculation Agent is entitled but has no legal duty to refuse the notional acquisition or unwind of exposure to any Reference Portfolio Constituent and to require the Reference Portfolio Advisor to initiate a Rebalancing in certain circumstances, as follows:
 - (a) The Reference Portfolio Advisor has selected a security, asset, exposure or contract for inclusion in the Reference Portfolio which is not part of the Investment Universe;
 - (b) The Reference Portfolio is in, or following the relevant Rebalancing would, breach any of the Investment Restrictions or any other rule or provision contained herein;
 - (c) A Market Disruption (which includes an FX Disruption Event) has occurred in respect of the relevant Reference Portfolio Constituent on the relevant Reference Portfolio Adjustment Date;
 - (d) The Calculation Agent determines that a Hedging Disruption Event has occurred in relation to any Reference Portfolio Constituent or Eligible Constituent. In this paragraph, "**Hedging Disruption Event**" means the determination by the Calculation Agent that it would not be reasonably practicable or it would otherwise be undesirable, for any reason, for a Notional Investor wholly or partially to establish, re-establish, substitute or maintain any hedging transaction which in the determination of the Calculation Agent would be necessary or desirable to hedge the obligations of an issuer of securities linked to the performance of the Reference Portfolio (such reasons may include, but are not limited to (i) any material illiquidity in the market for any Reference Portfolio Constituent or Eligible Constituent, (ii) a change in any applicable law (including, without limitation, any tax law) or the promulgation of, or change in, the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law (including any action taken by a taxing authority); or (iii) the general unavailability of market participants who would agree to enter into any such hedging transaction on commercially reasonable terms or at all; and
 - (e) The Calculation Agent determines that it would not be reasonably practicable for a Notional Investor in the same position as the Issuer to make purchases and/or sales of the Reference Portfolio Constituent(s), as the case may be, due to compliance, regulatory, reporting or

reputational constraints, take-over considerations, internal restrictions or lack of internal approval.

In the event that the Calculation Agent requires the Reference Portfolio Advisor to initiate a Rebalancing such that the Reference Portfolio complies with the foregoing, the Reference Portfolio Advisor shall, as soon as is reasonably practicable and without undue delay, initiate a Rebalancing such that the Reference Portfolio complies with the foregoing as at the immediately following Reference Portfolio Adjustment Date. The Reference Portfolio Advisor has no right to object to such Rebalancing required by the Calculation Agent.

For the avoidance of doubt: Notwithstanding the entitlements of the Calculation Agent under this paragraph, the sole responsibility and legal duty to manage the Reference Portfolio in compliance with the rules and provisions contained in this Section 4 is with the Reference Portfolio Advisor.

- (4.7) As soon as is reasonably practicable after receipt of an effective Rebalancing Notice on a Reference Portfolio Adjustment Date, and subject to any rejection pursuant to Section (4.6) above, the Calculation Agent shall notify the Reference Portfolio Advisor of (a) the Notional Net Acquisition Value and Notional Net Unwind Value applicable to each Reference Portfolio Constituent that is subject to the Rebalancing and (b) the Exposure of each Reference Portfolio Constituent comprised in the Reference Portfolio as a result of the Rebalancing. Upon receipt by the Reference Portfolio Advisor of such notice from the Calculation Agent, the Rebalancing shall be binding and conclusive on the Reference Portfolio Advisor in the absence of manifest error.

For the avoidance of doubt, a proposed Rebalancing shall be effective only if and to the extent that the Calculation Agent, on the Reference Portfolio Adjustment Date on which the relevant Rebalancing Notice is given, notifies to the Reference Portfolio Advisor the information mentioned in (a) and (b) above. Should a proposed Rebalancing not be fully effective on a Reference Portfolio Adjustment Date, subject to Section (4.3), the Reference Portfolio Advisor will be required to deliver one or more further Rebalancing Notices in accordance with the provisions hereof to execute the remainder of the initially proposed Rebalancing.

- (4.8) In this section:

- (a) **"Notional Net Acquisition Value"** means, in relation to an Eligible Constituent, the notional price (net of any applicable Adjustment Fee) at which the Calculation Agent determines that a Notional investor would be able to notionally acquire exposure to such Reference Portfolio Constituent (where applicable, on the Relevant Exchange) at the execution time on the relevant Reference Portfolio Adjustment Date, as converted into Redemption Currency where such Reference Portfolio Constituent is not denominated in the Redemption Currency, at the then prevailing currency exchange rate, each as determined by the Calculation Agent in its reasonable discretion; and
- (b) **"Notional Net Unwind Value"** means, in relation to a Reference Portfolio Constituent, the notional price (net of any applicable Adjustment Fee) at which the Calculation Agent determines that a Notional investor would be able to notionally unwind exposure to such Reference Portfolio Constituent (where applicable, on the Relevant Exchange) at the execution time on the relevant Reference Portfolio Adjustment Date, as converted into Redemption Currency, where such Reference Portfolio Constituent is not denominated in the Redemption Currency, at the then prevailing currency exchange rate, each as determined by the Calculation Agent in its reasonable discretion.

(5) Fees and Costs applicable to the Reference Portfolio

The Reference Portfolio Level is calculated net of certain fees, costs, taxes, charges and expenses that may be incurred from time to time in connection with the creation, maintenance and management of the Reference Portfolio, as follows:

- (5.1) **Reference Portfolio Advisor Fee:** The Reference Portfolio Advisor will receive a fee (the **"Reference Portfolio Advisor Fee"**) of 0.60 % per annum of the Reference Portfolio Level, accruing on a pro-rata daily basis by reference to the closing Reference Portfolio Level as of the immediately preceding Reference Portfolio Calculation Date, as determined by the Calculation Agent in its reasonable discretion.

- (5.2) **Issuer Fee:** The Issuer will receive a fee (the "**Issuer Fee**") of 0.25 % per annum of the Reference Portfolio Level, accruing on a pro-rata daily basis by reference to the closing Reference Portfolio Level as of the immediately preceding Reference Portfolio Calculation Date, as determined by the Calculation Agent in its reasonable discretion.
- (5.3) **Reference Portfolio Advisor Performance Fee:** The Reference Portfolio Advisor will receive a performance fee (the "**Reference Portfolio Advisor Performance Fee**"), levied on the positive daily performance (if any) of the Reference Portfolio, as determined by the Calculation Agent in its reasonable discretion.

On any Reference Portfolio Calculation Date, the Reference Portfolio Advisor Performance Fee shall be an amount equal to a percentage of the positive difference, if any, between the Gross Reference Portfolio Level as of such date and the High Water Mark Level as of the immediately preceding Reference Portfolio Calculation Date, in each case, as determined by the Calculation Agent in its reasonable discretion. The Reference Portfolio Advisor Performance Fee shall be factored into the determination of the Reference Portfolio Level as follows:

$$RPL_t = GRPL_t - \text{MAX}[PF \times (GRPL_t - HWM_{t-1}), 0]$$

Where:

"**HWM**" or "**High Water Mark Level**" means 104.12 % of the Initial Reference Portfolio Level on the Fixing Date and, on each Reference Portfolio Calculation Date "t" thereafter, the greater of the High Water Mark Level on the immediately preceding Reference Portfolio Calculation Date "t-1" and the Gross Reference Portfolio Level on such Reference Portfolio Calculation Date "t". On the last Reference Portfolio Calculation Date "t" of each calendar year, the High Water Mark Level in respect of such day shall be reset to the greater of (a) the High Water Mark Level in respect of the immediately preceding Reference Portfolio Calculation Date "t", and (b) 107 % of the Reference Portfolio Level in respect of the last Reference Portfolio Calculation Date "t" of the calendar year.

Securities bought in the secondary market will reflect the current High Water Mark Level. As such, if the current High Water Mark Level is above the current Reference Portfolio Level, such Securities will not accrue the Reference Portfolio Advisor Performance Fee until the Reference Portfolio Level is above the current High Water Mark Level.

"**GRPL**" or "**Gross Reference Portfolio Level**" means the Initial Reference Portfolio Level on the Fixing Date and, on each Reference Portfolio Calculation Date "t" thereafter, the Reference Portfolio Level as of the immediately preceding Reference Portfolio Calculation Date "t-1", as adjusted for the performance of the Reference Portfolio on such Reference Portfolio Calculation Date "t", net of the Reference Portfolio Fee and the Adjustment Fee, if any, for such Reference Portfolio Calculation Date "t", but before the deduction of the Reference Portfolio Advisor Performance Fee, if any, for such Reference Portfolio Calculation Date "t".

"**PF**" means 15 %.

"**RPL**" means, on any Reference Portfolio Calculation Date "t", the Reference Portfolio Level on such Reference Portfolio Calculation Date "t".

- (5.4) **Adjustment Fee:** An adjustment fee (the "**Adjustment Fee**") is levied in the context of adjusting the Reference Portfolio Constituents. This Adjustment Fee is, for calculation purposes, referenced to each notional adjustment made in the Reference-Portfolio, and represents a percentage of the Exposure of each of the purchase and/or sale of a Reference Portfolio Constituent (comprised in the Reference Portfolio), as converted into the Redemption Currency at the then prevailing exchange rate, as determined by the Calculation Agent in its reasonable discretion. For the avoidance of doubt, unwind costs to determine the Final Reference Portfolio Level shall constitute Adjustment Fees.

In respect of each Reference Portfolio Constituent, the Adjustment Fee is equal to:

Stock Constituents	0.05 %
--------------------	--------

(5.5) Reference Portfolio Fee: The sum of the Reference Portfolio Advisor Fee and the Issuer Fee shall constitute the "**Reference Portfolio Fee**".

(5.6) Calculation of Fees and Costs applicable to the Reference Portfolio: The Reference Portfolio Fee and the Reference Portfolio Advisor Performance Fee for each calendar day shall each be calculated by the Calculation Agent on each Reference Portfolio Calculation Date by reference to the immediately preceding Reference Portfolio Calculation Date and taking into account all calendar days since the immediately preceding Reference Portfolio Calculation Date, and shall be deducted from all Reference Portfolio Components on a pro rata basis prior to the determination of the Reference Portfolio Level on such Reference Portfolio Calculation Date.

The relevant Adjustment Fee shall be calculated by the Calculation Agent and shall be deducted from the Cash Position (and, accordingly, from the Reference Portfolio Level) on each Reference Portfolio Adjustment Date.

If, at the time the Reference Portfolio Fee, the Reference Portfolio Advisor Performance Fee or any Adjustment Fee is calculated, the value of the Cash Position is insufficient to cover any such fee, the Calculation Agent is entitled to require the Reference Portfolio Advisor to initiate a Rebalancing in accordance with Section (4).

(6) Adjustments of the Reference Portfolio

(6.1) Consequences of the Occurrence of a General Reference Portfolio Disruption Event or a Component Disruption Event

Subject to Section (6.2) below, if, at any time prior to a Valuation Date, the Calculation Agent determines that a General Reference Portfolio Disruption Event occurs in respect of the Reference Portfolio or a Component Disruption Event occurs in respect of any one or more Reference Portfolio Components, it shall notify the Reference Portfolio Advisor and the Reference Portfolio Advisor shall make such adjustments (if any) to the Reference Portfolio (including, without limitation, the Investment Universes in respect of the Reference Portfolio) as the Reference Portfolio Advisor determines, acting reasonably and in consultation with the Calculation Agent, are necessary or appropriate to preserve to the greatest extent possible the Reference Portfolio Level and the economic balance of the Securities between the Issuer and the Securityholders which existed immediately prior to the occurrence of such General Reference Portfolio Disruption Event or, as the case may be, Component Disruption Event.

For these purposes:

"**Component Disruption Event**" means, in respect of any Reference Portfolio Component, the occurrence of any one or more of the following events:

- (a) a change to the liquidity, the trading volume, the terms or listing of any Reference Portfolio Component;
- (b) a Change in Law occurs with respect to such Reference Portfolio Component;
- (c) any event or circumstance whereby the value of such Reference Portfolio Component is incorrect or unreliable;
- (d) such Reference Portfolio Component is permanently discontinued or unavailable;
- (e) a change in the method by which the value of a Reference Portfolio Component is calculated;
- (f) an Increased Cost of Hedging or a Hedging Disruption occurs with respect to a Reference Portfolio Component;
- (g) the occurrence of any other event which has a material impact on the ability of the Reference Portfolio Advisor to perform its obligations in respect of the Reference Portfolio;

- (h) the occurrence of any other event or circumstance which prevents the Reference Portfolio from meeting its objective;

which:

- (i) in the case of the event referred to in paragraph (g) above, the Reference Portfolio Advisor determines, acting reasonably; and
- (ii) in each other case, which the Calculation Agent determines, acting reasonably, and notifies to the Reference Portfolio Advisor,

has or is reasonably likely to have a material adverse effect on the Reference Portfolio Level and the economic balance of the Securities between the Issuer and the Securityholders which existed immediately prior to the occurrence of such Component Disruption Event in respect of such Reference Portfolio Component.

"General Reference Portfolio Disruption Event" means the occurrence of any one or more of the following events:

- (a) an unscheduled closure or material restriction or suspension in trading of any relevant money market;
- (b) the failure, suspension or postponement of any calculation by a party other than the Calculation Agent necessary for the purposes of determining the composition of the Reference Portfolio or a breakdown in communications or procedure which is normally used in connection with determining the composition of the Reference Portfolio at any time;
- (c) any event which the Calculation Agent determines, acting reasonably, prevents the prompt or accurate determination of the composition of the Reference Portfolio; and
- (d) the disruption of trading on the Relevant Exchange, or on the Relevant Futures and Options Exchange (as applicable) in respect of any Reference Portfolio Component or any other similar event that materially disrupts or impairs trading of any Reference Portfolio Component comprised in the Reference Portfolio at such time,

in each case, which the Calculation Agent determines, acting reasonably, and notifies to the Reference Portfolio Advisor, has or is reasonably likely to have an adverse impact on the Reference Portfolio Level and the economic balance of the Securities between the Issuer and the Securityholders which existed immediately prior to the occurrence of such General Reference Portfolio Disruption Event.

(6.2) Successor Reference Portfolio Constituent; Substitute Price Source; Corrected Price

(6.2.1) Successor Reference Portfolio Constituent

In the event that, prior to a Valuation Date, any Reference Portfolio Constituent (the **"Original Reference Portfolio Constituent"**) ceases to exist (in circumstances which do not amount to a Relevant Notional Distribution) and/or is replaced by a successor underlying (by any parties other than the Reference Portfolio Advisor), the Reference Portfolio Advisor shall determine, acting reasonably, which underlying economically equivalent to the Original Reference Portfolio Constituent shall comprise or be included in the Reference Portfolio in the future (the **"Successor Reference Portfolio Constituent"**) and to replace such Original Reference Portfolio Constituent with the Successor Reference Portfolio Constituent.

(6.2.2) Substitute Price Source

In the event that, prior to a Valuation Date, the quotation or trading in any Reference Portfolio Constituent or, in each case, any component thereof is discontinued on the Relevant Exchange or on the Relevant Futures and Options Exchange (as applicable) and, concurrently, quotation or trading in such Reference Portfolio Constituent or, as the case may be, such component thereof is started up or maintained on another stock exchange (as applicable), the Calculation Agent shall be entitled to stipulate such other stock exchange (as applicable) as the new Relevant Exchange, or, as the case may be, Relevant Futures and Options Exchange (as applicable).

(6.2.3) Corrected Price

In the event that, prior to a Valuation Date, the price of any Reference Portfolio Constituent published by the Relevant Exchange is corrected and the correction (the "**Corrected Price**") is published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, the Calculation Agent shall be entitled to effect such adjustments to the Reference Portfolio as the Calculation Agent determines, acting reasonably, are necessary or appropriate to account for the Corrected Price and, promptly after making any such adjustments, shall notify the Reference Portfolio Advisor accordingly.

For these purposes, "**Settlement Cycle**" means, in respect of any Reference Portfolio Constituent, the number of days following a trade in such Reference Portfolio Constituent on the Relevant Exchange with respect to such Reference Portfolio Constituent in which settlement will customarily occur in accordance with the applicable rules and practices of such Relevant Exchange (as applicable).

(6.3) Adjustments and Determinations

(6.3.1) No Rebalancing

Any adjustment to and/or determination in respect of the Reference Portfolio made by the Reference Portfolio Advisor or, as the case may be, the Calculation Agent in accordance with this Section (6) shall not constitute a Rebalancing.

(6.3.2) Adjustments and Determinations Final and Binding

The Reference Portfolio Advisor and the Calculation Agent shall effect all adjustments to and/or determinations in respect of the Reference Portfolio in accordance with this Section (6), acting reasonably and under consideration of the market conditions prevailing at the time such adjustments and/or determinations. Any such adjustments and/or determinations made by the Reference Portfolio Advisor or, as the case may be, the Calculation Agent shall be final, conclusive and binding, except where there is a manifest error.

(6.3.3) Timing of Adjustments; Notification

In connection with any adjustment to and/or determination in respect of the Reference Portfolio in accordance with this Section (6), the Reference Portfolio Advisor or, as the case may be, the Calculation Agent shall (i) determine the date on which such adjustment and/or determination shall take effect (the "**Adjustment Effective Date**") and, (ii) promptly and, in any event, within one (1) Banking Day of deciding to make such adjustment and/or determination, notify such adjustment and/or determination and the relevant Adjustment Effective Date to the Issuer and the Calculation Agent or, as the case may be, the Reference Portfolio Advisor.

What are the key risks that are specific to the Issuer?				
Credit risk in relation to UBS AG as Issuer Each investor in securities issued by UBS AG as Issuer is exposed to the credit risk of UBS AG. The assessment of UBS AG's creditworthiness may be affected by a number of factors and developments. These include UBS Group AG's acquisition of Credit Suisse Group AG and the integration of the groups, UBS's reputation, operational risks, risk management and control processes, market conditions and macroeconomic climate, credit risk exposure to clients and counterparties, material legal and regulatory risks, substantial changes in regulation, UBS AG's success in executing its strategic plans, and liquidity and funding management. If UBS experiences financial difficulties, FINMA has the power to open restructuring or liquidation proceedings or impose protective measures in relation to UBS Group AG, UBS AG or UBS Switzerland AG, and such proceedings or measures may have a material adverse effect on UBS AG's creditors. If restructuring or liquidation proceedings are instituted against UBS AG, holders of securities may suffer a substantial or total loss on the securities.				

Section C – Key Information on the Securities	
What are the main features of the Securities?	
Type and form of the Securities The Securities are structured debt securities with no capital protection. The Securities are issued as simple uncertificated securities (<i>Einfache Wertrechte</i>; "Uncertificated Securities") pursuant to article 973c of the Swiss Code of Obligations. Uncertificated Securities are registered in the main register of a Swiss depository (<i>Vervahrungsstelle</i>; "FISA Depository") according to the Swiss Federal Act on Intermediated Securities ("FISA"). Upon (a) entering the Uncertificated Securities into the main register of a FISA Depository and (b) booking the Securities into a securities account at a FISA Depository, the Uncertificated Securities will constitute intermediated securities within the meaning of FISA (<i>Bucheffekten</i>). The Issuer will normally choose SIX SIS AG, Baslerstrasse 100, CH-4600 Olten, Switzerland, ("SIS") as FISA Depository, but reserves the right to choose any other FISA Depository, including UBS AG. The Securities are governed by Swiss law. Rights attached to the Securities; payment profile at scheduled maturity Objective of the Securities is to provide the Securityholder with a specified entitlement according to predefined conditions. The Securities have, unless terminated and redeemed early, a fixed lifetime, extendable at the option of the Issuer, and will become due on the Maturity Date. Extension of maturity by the Issuer: The Issuer is, for a maximum of three (3) times, entitled to extend, by giving notice to the Securityholders of not less than one hundred eighty (180) calendar days prior to the then existing Expiration Date, the maturity of all then outstanding Securities for an additional period of seven (7) years (per each extension). In such case, and unless a Securityholder rejects such maturity extension in relation to the Securities held by it, Securityholders will receive any final payments under the Securities later than originally scheduled at the extended Maturity Date. Ordinary termination by the Issuer: The Issuer is entitled to terminate all outstanding Securities on each Issuer Termination Date, subject to prior notice to the Securityholders. In such case, Securityholders are entitled to receive on the relevant Maturity Date the Redemption Amount in relation to the Issuer Termination Date. Automatic termination: In the case of the occurrence of an Automatic Termination Event, the Issuer shall notify the Securityholders without delay and all outstanding Securities are automatically terminated as soon as practicable thereafter, on the date on which a notional investor would be able to fully unwind its position in all constituents in such portfolio (the "Automatic Termination Date"). The Securityholders are entitled to receive on the relevant Maturity Date the Redemption Amount in relation to the Automatic Termination Date. An "Automatic Termination Event" occurs, if the Reference Portfolio Advisor ceases to be or to act as advisor in relation to the Reference Portfolio.	

Reference Portfolio and Redemption Amount:

The Securities are linked to the notional Swedish Krona ("SEK") denominated European Small Cap Portfolio, actively managed, created and maintained by the Reference Portfolio Advisor (the "**Reference Portfolio**"). The Reference Portfolio aims to replicate the performance of (i) long positions in stocks (each, a "**Stock Constituent**", and together, the "**Stock Constituents**"), also the "**Reference Portfolio Constituents**", and (ii) a SEK denominated cash position (the "**Cash Position**"; which, together with the Reference Portfolio Constituents, shall be referred to as the "**Reference Portfolio Components**"), net of relevant fees, costs and expenses.

The Reference Portfolio is initiated on 30 May 2025 (the "**Fixing Date**") by the Reference Portfolio Advisor with an initial level equal to SEK 10,000 (the "**Initial Reference Portfolio Level**").

The Securityholder will receive on the Maturity Date a redemption amount (the "**Redemption Amount**") in the Redemption Currency. The Redemption Amount depends on the Final Reference Portfolio Level and is determined on the relevant Valuation Date as follows:

The Redemption Amount equals (commercially rounded) the product of (A) the Calculation Amount and (B) the higher of either the Minimum Amount or the performance of the Reference Portfolio, and is calculated in accordance with the following formula:

$$\text{Calculation Amount} \times \text{MAX} \left(\text{Minimum Amount}, \frac{\text{Final Reference Portfolio Level}}{\text{Initial Reference Portfolio Level}} \right)$$

The "**Final Reference Portfolio Level**" means, subject to a market disruption or an unwind disruption, the value of the Reference Portfolio as determined by the Calculation Agent in relation to the relevant Valuation Date, whereby the relevant value of the Reference Portfolio shall be (i) the sum of the realisation proceeds as converted into the Redemption Currency, where applicable, using the then prevailing exchange rate, as determined by the Calculation Agent in its reasonable discretion, that would be realised by a notional investor (in the same position as the Issuer) when selling and/or, as the case may be, unwinding its position in all the Reference Portfolio Constituents then comprised in the Reference Portfolio **plus** (ii) the value of the Cash Position **minus** (iii) any accrued but not yet deducted Reference Portfolio Fee, Reference Portfolio Advisor Performance Fee and Adjustment Fee.

Maturity Date:	Ten (10) banking days after the relevant Valuation Date
Reference Portfolio Fee:	The sum of the Reference Portfolio Advisor Fee and the Issuer Fee. The Reference Portfolio Fee shall be accrued within, and deducted from, all Reference Portfolio Components proportionately.
Reference Portfolio Advisor Fee:	The Reference Portfolio Advisor will receive a fee of 0.60 % per annum of the level of the Reference Portfolio, deducted from the level of the Reference Portfolio on a pro-rata daily basis as determined by the Calculation Agent.
Issuer Fee:	The Issuer will receive a fee of 0.25 % per annum of the level of the Reference Portfolio, deducted from the level of the Reference Portfolio on a pro-rata daily basis as determined by the Calculation Agent.
Reference Portfolio Advisor Performance Fee:	The Reference Portfolio Advisor will receive a fee of 15 % which is levied on the positive daily performance, if any, of the Reference Portfolio (taking into account, if applicable, the high water mark level) as determined by the Calculation Agent. The Reference Portfolio Advisor Performance Fee shall be accrued within, and deducted from, all Reference Portfolio Components proportionately.
Adjustment Fee:	The Issuer will receive a fee which is levied for each rebalancing made in the Reference Portfolio. Such Adjustment Fee represents a percentage of the volume notionally acquired or unwound in a Reference Portfolio Constituent. Unwind costs to determine the Final Reference Portfolio Level shall constitute Adjustment Fees. In respect of each Stock Constituent, the Adjustment Fee is equal to 0.05 %. The Adjustment Fee shall be accrued within, and deducted from, the Cash Position.

Note: In the case of an early closure or an extension of the Subscription Period, the Issue Date, the Fixing Date and/or the Initial Payment Date may be changed accordingly.

The Issuer is entitled to terminate the Securities with immediate effect if an (extraordinary) termination event occurs. Examples of (extraordinary) termination events include that the determination and/or publication of the level of the Reference Portfolio is discontinued permanently or the occurrence of a change in law. In such case, the payable termination amount payable to Securityholders may be significantly lower than the capital invested by Securityholders for purchasing the Securities (including the transaction costs).

Relative seniority of the Securities in the Issuer's capital structure in the event of insolvency The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking pari passu among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law. Restrictions on free transferability of the Securities The Securities are freely transferrable. Dividend or payout policy During their term, the Securities do not generate any regular income (e.g. dividends or interest).
Where will the Securities be traded? It is intended that application for listing of the Securities on the multilateral trading facility Nasdaq First North Sweden will be made. No application to trading on a regulated market will be made.
What are the key risks that are specific to the Securities? The Securityholders are exposed to the risk of a bail-in. In case FINMA as supervisory authority in respect of the Issuer exercises resolution measures against the Issuer and writes down or converts the Securities into common equity of the Issuer, Securityholders would have no further claim against the Issuer under the Securities. The Securities are not protected by any statutory or voluntary deposit guarantee scheme. The Issuer's obligations under the Securities are not protected by any statutory or voluntary deposit protection scheme or compensation scheme. Further, no third party guarantees or commitments have been provided in respect of the Issuer's obligations under the Securities. Accordingly, in the event of insolvency of the Issuer, investors may thus experience a total loss of their investment in the Securities. Specific risks related to the linkage to the Reference Portfolio. The payment profile of the Securities is linked to the performance of a Reference Portfolio. Potential investors should be aware that the performance of the Reference Portfolio is impossible to predict. Poor performance of the Reference Portfolio would lead to lower amount(s) payable under the Securities. In the worst case, investors may only receive the product of the Calculation Amount and the Minimum Amount and would therefore suffer nearly a complete loss of the invested capital. Specific risks related to early termination of the Securities. In case of an automatic early termination of the Securities or a termination of the Securities by the Issuer, Securityholders bear the risk that they will not benefit from any future increases in the level of the Reference Portfolio until the scheduled Maturity Date. Accordingly, in case of an early termination and redemption of the Securities, Securityholders could receive less than the invested capital and may even suffer a near to total loss of the invested capital. Specific risks related to the performance of the Reference Portfolio Advisor. Potential investors bear the risk that investment decisions made by the Reference Portfolio Advisor could result in a decline in the level of the Reference Portfolio. Further, potential investors bear the risk that the loss of one or more key individuals employed by the Reference Portfolio Advisor could prejudice the Reference Portfolio Advisor's ability to perform its responsibilities in relation to the Reference Portfolio. In either case, potential investors could realise a partial or near to total loss of the invested capital. Specific risks in connection with currency exchange rates. Individual Reference Portfolio Constituents may be denominated in currencies other than the Redemption Currency. To determine the level of the Reference Portfolio, the Calculation Agent needs to convert the value of the Reference Portfolio Constituents from their respective denomination currency into the Redemption Currency by using a currency exchange rate prevailing at the time of such conversion. However, currency exchange rates are at times subject to considerable fluctuations and change significantly over time. Unfavourable developments in the value of the denomination currency of the Reference Portfolio Constituents against the Redemption Currency may therefore reduce the value of the Securities and may even result in a near to total loss of the invested capital. Specific risks related to extension of the term of the Securities. If the Issuer exercises its unilateral option under the Conditions of the Securities to extend the term of the Securities and the Securityholders do not object to such exercise, investors in the Securities will receive any final payments under the Securities later than scheduled. In such case, Securityholders bear the risk of poor performance of the Reference Portfolio during the extension period which could result in a near to total loss of the invested capital. Specific risks related to adjustments of the level of the Reference Portfolio or the Conditions of the Securities by the Issuer and the Calculation Agent. Adjustments by the Issuer and the Calculation Agent to the level of the Reference Portfolio or to the Conditions of the Securities made in accordance with the Conditions of the Securities, if inaccurate or insufficient, may not preserve the underlying concept or calculation of the Reference Portfolio applicable prior to such changes and could therefore have an adverse effect on the value of the Securities. This could result in a partial loss of the invested capital. Specific risks related to the market price of the Securities. Potential investors bear the risk that the market price of the Securities may fluctuate during the term of the Securities, including, without limitation, as a result of the performance of any individual Reference Portfolio Constituents or of the Reference Portfolio as a whole. Accordingly, Securityholders bear the risk that if they can sell any Securities prior to their due date, the sale proceeds may fall below (including significantly below) the amount of capital initially invested in the Securities and investors would then lose some or near to all of the invested capital. Specific risks related to the liquidity of the Securities. Potential investors bear the risk that there is no liquid market for trading in the Securities. This means that they may not be able to sell the Securities at a time of their own choosing. This could, in turn, result in potential investors receiving a lower sale price than they would have received had a liquid market existed. Specific risks related to potential conflicts of interest of the Issuer and its affiliates. The Issuer and its affiliates may have commercial interests that conflict with those of the Securityholders (e.g. as a result of the Issuer's involvement in other transactions or the Issuer's existing business relationship with the issuer of any Reference Portfolio Constituent of the Reference Portfolio) and that may impact the value and/or trading of the Securities. In turn, this could result in Securityholders receiving less when selling any Securities, they hold, than they would have received but for such conflicts of interest and/or even suffering a partial loss of the invested capital. Specific risks related to potential conflicts of interests of the Reference Portfolio Advisor. The Reference Portfolio Advisor may not only act

as Reference Portfolio Advisor with regard to the Reference Portfolio, but may at the same time act as asset manager or financial consultant with regard to Securityholders, which may induce potential conflicts between the Securityholders' interests and the Reference Portfolio Advisor's interests, in particular when the Reference Portfolio Advisor receives under the Securities any fee from the Issuer. This could lead to a worse performance of the Reference Portfolio overall and, therefore, to lower returns realised by Securityholders.

Specific risks related to the lack of direct correlation between the performance of individual Reference Portfolio Components and the overall performance of the Reference Portfolio. Potential investors bear the risk that the positive performance of individual Reference Portfolio Constituents does not directly correlate to an overall positive performance of the Reference Portfolio. Even in the case of a positive performance of one or more Reference Portfolio Constituents comprised in the Reference Portfolio, the performance of the Reference Portfolio as a whole may be negative if the performance of the other Reference Portfolio Constituents is negative to a greater extent.

Specific risks related to Securityholders having no recourse to the Reference Portfolio Components. Potential investors should be aware that the Securities do not create any entitlement, proprietary rights or recourse to any Reference Portfolio Components comprising the Reference Portfolio from time to time. Accordingly, in connection with all payments in respect of the Securities, the Securityholders are exposed solely to the credit risk of the Issuer and have no recourse to any underlying assets.

Section D – Key Information on the offer of Securities to the public and/or the admission to trading on a regulated market

Under which conditions and timetable can I invest in this Security?

UBS Europe SE, Bockenheimer Landstrasse 2-4, 60306 Frankfurt am Main, Germany, and UBS Europe SE Sweden Bankfilial, Regeringsgatan 38, 6th floor, 111 56 Stockholm, Sweden, (the "**Manager**") shall be responsible for coordinating the entire Securities offering.

It has been agreed that, on or after the respective Issue Date of the Securities, the Manager may purchase Securities and place the Securities for sale in Sweden (the "**Public Offer Jurisdiction(s)**") as of the start of the Subscription Period. After closing of the Subscription Period the selling price will be adjusted on a continuous basis to reflect the prevailing market situation.

The total expenses of the issue and/or offer are not separately identifiable and included in the general operating expenses of the Issuer.

The Securities may be subscribed from the Manager and the Reference Portfolio Advisor (each an "**Authorised Offeror**") during normal banking hours between 22 April 2025 and 26 May 2025 (17:30 Stockholm time) (the "**Subscription Period**"). The Issue Price per Security is payable on the Initial Payment Date. The Issuer reserves the right to early close or to extend the Subscription Period if market conditions so require.

Who is the offeror and/or the person asking for admission to trading?

Offeror: UBS Europe SE, a stock corporation incorporated under German law and domiciled in Germany, acting either through itself and/or its Sweden branch and Strivo AB, a limited company (aktiebolag) incorporated under Swedish law and domiciled in Sweden

Why is this Prospectus being produced?

Use of proceeds

The Issuer intends to issue and offer the Securities to the public in order to raise funding for general business purposes of the UBS Group. The Issuer is therefore free to use the proceeds and there is in particular no obligation to invest in the Reference Portfolio Components.

Underwriting agreement(s)

It has been agreed that the Manager shall underwrite the Securities on or after the respective Issue Date by means of an underwriting agreement and shall place them for sale under terms subject to change in the Public Offer Jurisdiction(s).

Most material conflicts of interest

The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Reference Portfolio Constituents comprised in the Reference Portfolio, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations.

Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full.

Vilka är de viktigaste riskerna som är specifika för Emittenten?				
Kreditrisk i relation till UBS AG som Emittent Varje investerare i värdepapper som emitterats av UBS AG är utsatt för UBS AG:s kreditrisker. Bedömningen av UBS AG:s kreditvärdighet kan påverkas av ett antal faktorer och utvecklingar. Dessa omfattar UBS Group AG:s förvärv av Credit Suisse Group AG och integrationen av koncernerna, UBS anseende, operativa risker, riskhantering och kontrollprocesser, marknadsvillkor och makroekonomiskt klimat, kreditexponering mot klienter och motparter, väsentliga rättsliga och lagstiftningsmässiga risker, betydande förändringar i regleringen, UBS AG:s framgångar i genomförandet av sina strategiska planer samt likviditets- och finansieringshantering. Om UBS erfar finansiella svårigheter har FINMA befogenheten att starta resolutions- eller likvidationsförfaranden eller införa skyddsåtgärder avseende UBS Group AG, UBS AG eller UBS Switzerland AG och sådana förfaranden eller åtgärder kan ha en betydande negativ inverkan för UBS AG:s borgenärer. Om omstrukturerings- eller awecklingsförfaranden beslutas gentemot UBS AG, kan innehavare av värdepapper lida en väsentlig eller fullständig förlust av värdepapperna.				

Avsnitt C – basfakta om Värdepapperen
Vilka är Värdepapperens huvudegenskaper? Typ av Värdepapper och deras form Värdepapperen är strukturerade skuldebrev utan kapitalskydd. Värdepapperen emitteras som enkla ocertificerade värdepapper (<i>Einfache Wertrechte</i>; "Ocertificerade Värdepapper" (<i>Uncertificated Securities</i>)) enligt artikel 973c i den schweiziska federala lagen om skyldigheter (<i>Swiss Code of Obligations</i>). Ocetificerade Värdepapper är registrerade i huvudregistret hos ett schweiziskt depåinstitut (<i>Verwahrungsstelle</i>; "FISA Depositary") enligt den schweiziska federala lagen om förmedlade värdepapper (<i>Swiss Federal Act on Intermediated Securities</i>) ("FISA"). När Ocetificerade Värdepapper (a) förs in i huvudregistret hos en FISA Depositary och (b) Värdepapperen bokas till ett värdepapperskonto hos en FISA Depositary, kommer de Ocetificerade Värdepapper att utgöra förmedlade värdepapper i den mening som avses i FISA (<i>Bucheffekten</i>). Emittenten väljer normalt SIX SIS AG, Baslerstrasse 100, CH-4600 Olten, Schweiz, ("SIS") som FISA Depositary, men förbehåller sig rätten att välja alla andra FISA Depositary, inklusive UBS AG. Värdepapperens regleras av schweizisk lag. Rättigheter som följer med Värdepapperen; utbetalningsprofil vid planenlig löptid Syftet med Värdepapperen är att ge Värdepappersinnehavaren en specificerad rättighet enligt förutbestämda villkor. Värdepapperen har, om de inte avslutats och lösts in i förtid, en fastställd livslängd, som kan förlängas efter Emittentens val, och kommer att förfalla till betalning på Förfallodagen. Förlängning av förfallodagen av Emittenten: Emittenten har, högst tre (3) gånger, rätt att förlänga löptiden för alla då utestående Värdepapper med ytterligare sju (7) år (per varje förlängning), genom att meddela Värdepappersinnehavarna minst etthundraåttio (180) kalenderdagar före gällande Slutdag. I sådana fall, och såvida inte en Värdepappersinnehavare avisar en sådan förlängning av löptiden i förhållande till de Värdepapper som innehas av denne, kommer Värdepappersinnehavare att erhålla eventuella slutliga betalningar enligt Värdepappren senare än vad som ursprungligen planerats på den förlängda Förfallodagen. Ordinarie uppsägning från Emittentens sida: Emittenten har rätt att avsluta alla utestående Värdepapper på varje Emittentens Avslutsdag, med förbehåll för förhandsbesked till Värdepappersinnehavarna. I sådana fall får Värdepappersinnehavaren på gällande Förfallodag Inlösenbeloppet i relation till Emittentens Avslutsdag. Automatiskt avslut: Om en Automatisk Avslutshändelse inträffar ska Emittenten utan dröjsmål underrätta Värdepappersinnehavarna och alla utestående Värdepapper avslutas automatiskt så snart som möjligt därefter, på dagen när en hypotetisk investerare skulle kunna aweckla positionen helt och hållet i portföljens alla beståndsdelar (den "Automatiska Avslutsdagen"). Värdepappersinnehavarna erhåller Inlösenbeloppet i relation till den Automatiska Avslutsdagen på aktuell Förfallodag.

En "**Automatisk Avslutshändelse**" inträffar om Referensportföljrådgivaren upphör att vara eller agera som rådgivare i förhållande till Referensportföljen.

Referensportfölj och Inlösenbelopp:

Värdepappren är kopplade till en hypotetisk *European Small Cap* Portfölj denominerad i svenska kronor ("**SEK**"), som förvaltas, skapas och underhålls aktivt av Referensportföljrådgivaren ("**Referensportföljen**"). Referensportföljen syftar till att replikera resultatet för (i) långa positioner i aktier (en "**Aktiebeståndsdel**"), och tillsammans "**Aktiebeståndsdelarna**"), även "**Referensportföljens Beståndsdelar**" och (ii) en kontantposition i SEK ("**Kontantpositionen**"; som tillsammans med Referensportföljens Beståndsdelar kallas "**Referensportföljkomponenter**"), efter avdrag för relevanta avgifter, kostnader och utgifter.

Referensportföljen initieras på 30 maj 2025 ("**Fastställledagen**") av Referensportföljrådgivaren, med en initial nivå som är lika med Emissionskursen (den "**Initiala Nivån på Referensportföljen**").

Värdepappersinnehavaren kommer på Förfallodagen att erhålla ett inlösenbelopp ("**Inlösenbeloppet**") i Inlösenvalutan. Inlösenbeloppet beror på den Slutliga Nivån på Referensportföljen och fastställs på den relevanta Värderingsdagen enligt följande:

Inlösenbeloppet motsvarar (kommersiellt avrundat) produkten av (A) Beräkningsbeloppet och (B) det högre av antingen det Lägsta Beloppet eller utvecklingen för Referensportföljen och beräknas enligt följande formel:

$$\text{Beräkningsbelopp} \times \text{MAX} \left(\text{Lägsta Belopp}, \frac{\text{Slutlig Nivå på Referensportfölj}}{\text{Initial Nivå på Referensportfölj}} \right)$$

Den "**Slutliga Nivån på Referensportföljen**" avser, med förbehåll för en marknadsstörning eller en avvecklingsstörning, värdet på Referensportföljen som fastställts av Beräkningsagenten i förhållande till den relevanta Värderingsdagen, varvid det relevanta värdet på Referensportföljen ska vara (i) summan av realisationslikviden omvandlad till Inlösenvalutan, i förekommande fall, med den då rådande växelkursen, som skulle realiserats av en teoretisk investerare (i samma position som Emittenten) vid försäljning och/eller, i förekommande fall, avveckling av sin position i alla Referensportföljbeståndsdelar som då ingår i Referensportföljen **plus** (ii) värdet på Kontantpositionen **minus** (iii) eventuell upplupen men ännu inte avdragen Referensportföljens Avgift, Referensportföljrådgivarens Resultatbaserade Avgift och Justeringsavgift.

Referensportföljrådgivarens Resultatbaserade Avgift ska ackumuleras till inom och dras av från alla Referensportföljkomponenter proportionellt.
Justeringsavgift:	Emittenten kommer att erhålla en avgift som tas ut för varje rebalansering som görs i Referensportföljen. Sådan Justeringsavgift representerar en procentandel av den volym som teoretiskt förvärvats eller avvecklats i en Referensportföljbeståndsdel. Avvecklingskostnader för att fastställa den Slutliga Nivån på Referensportföljen ska utgöra Justeringsavgifter. För varje Aktiebeståndsdel är Justeringsavgiften lika med 0,05 %. Justeringsavgiften ska ackumuleras till inom och dras av från Kontantpositionen.

Obs: Om Teckningsperioden förlängs eller förkortas kan Emissionsdagen, Fastställledagen och/eller den Initial Betalningsdagen komma att förändras i enlighet därmed.

Emittenten äger rätt att avsluta Värdepapperen med omedelbar verkan om en (extraordinär) avslutningsgrundande händelse inträffar. Exempel på (extraordinära) avslutningsgrundande händelser inkluderar att fastställandet och/eller publiceringen av nivån på Referensportföljen avbryts permanent eller att en lagändring inträffar. I sådana fall kan uppsägningsbeloppet som ska betalas till Värdepappersinnehavarna vara betydligt lägre än det kapital som investerats av Värdepappersinnehavarna vid köp av Värdepapperen (inklusive transaktionskostnaderna).

Värdepapperens relativa senioritet i Emittentens kapitalstruktur i händelse av insolvens Värdepapperen utgör direkta, icke-säkerställda och icke-efterställda förpliktelser för Emittenten, som rangordnas lika sinsemellan och med alla andra nuvarande och framtida icke-säkerställda och icke-efterställda förpliktelser för Emittenten, annat än skyldigheter som regleras i tvingande lagstiftning. Restriktioner för den fria överlåtbarheten för Värdepapperen Värdepapperen är fritt överlåtbara. Utdelnings- eller utbetalningspolicy Under löptiden genererar Värdepapperen inga regelbundna intäkter (t.ex. utdelningar eller räntor).
Var kommer Värdepapperen att handlas? Det är avsett att ansöka om notering av värdepapperen på den multilaterala handelsplattformen <i>Nasdaq First North Sweden</i>. Ingen ansökan om handel på en reglerad marknad kommer att göras.
Vilka är de allvarigaste riskerna som är specifika för Värdepapperen? Värdepappersinnehavarna är exponerade för risken för skuldnedskrivning. I händelse av att FINMA, i egenskap av tillsynsmyndighet för finansmarknaderna i fråga om Emittenten, vidtar resolutionsåtgärder mot denne och gör en nedskrivning av värdet på Värdepapperen, eller konverterar Värdepapperen till primärkapital, har inte Värdepappersinnehavarna några ytterligare krav mot Emittenten av Värdepapperen. Det finns inget i lag föreskrivet system för garanti av insättningar eller något insättningsgarantisystem på frivillig basis som ger dig som investerare skydd för Värdepapperen. Emittentens förpliktelser som är förenade med Värdepapperen garanteras inte genom något lagstadgat eller frivilligt system för garanti av insättningar, eller genom kompensationsplaner av något slag. Vidare har inga garantier eller löften från tredje part utfärdats beträffande Emittentens förpliktelser som är förenade med Värdepapperen. Om Emittenten blir insolvent kan följaktligen Värdepappersinnehavare lida en total förlust av sina investeringar i Värdepapperen. Specifika risker relaterade till kopplingen till Referensportföljen. Betalningsprofilen för Värdepapperen är kopplad till resultatet för en Referensportfölj. Potentiella investerare bör vara medvetna om att Referensportföljens utveckling är omöjlig att förutsäga. Dålig utveckling för Referensportföljen skulle leda till (ett) lägre belopp som betalas enligt Värdepapperen. I värsta fall kan investerare endast få produkten av Beräkningsbeloppet och det Lägsta Beloppet och skulle därför lida en nästan fullständig förlust av det investerade kapitalet. Specifika risker relaterade till tidig uppsägning av Värdepapperen. I händelse av ett automatiskt förtida avslut av Värdepapperen eller Emittentens uppsägning av Värdepapperen, löper Värdepappersinnehavarna risken att de inte kommer att kunna dra nytta av eventuella framtida öknings på nivån på Referensportföljen fram till den planerade Förfallodagen. Följaktligen, i händelse av ett förtida avslut och inlösen av Värdepapperen, kan Värdepappersinnehavarna få mindre än det investerade kapitalet och kan till och med drabbas av en nästan total förlust av det investerade kapitalet. Specifika risker relaterade till Referensportföljrådgivarens resultat. Potentiella investerare bär risken att investeringsbeslut fattade av Referensportföljrådgivaren kan resultera i en minskning av nivån på Referensportföljen. Vidare bär potentiella investerare risken att förlusten av en eller flera nyckelpersoner som är anställda av Referensportföljrådgivaren skulle kunna påverka Referensportföljrådgivarens förmåga att förvalta Referensportföljen. I båda fallen kan potentiella investerare få en partiell eller nästan total förlust av det investerade kapitalet. Specifika risker i samband med valutakurser. Individuella Beståndsdelar i Referensportföljen kan vara denominerade i andra valutor än Inlösenvalutan. För att fastställa nivån på Referensportföljen måste Beräkningsagenten konvertera värdet på Referensportföljbeståndsdelar från deras respektive denomineringsvaluta till Inlösenvalutan genom att använda en valutakurs som råder vid tidpunkten för sådan omvandling. Valutakurser är emellertid ibland föremål för betydande fluktuationer och förändras avsevärt över tiden. En ogynnsam utveckling av värdet på denomineringsvalutan för Referensportföljens Beståndsdelar mot Inlösenvalutan kan därför minska värdet på Värdepapperen och kan till och med resultera i en nästan total förlust av det investerade kapitalet. Specifika risker relaterade till förlängning av Värdepapperens löptid. Om Emittenten utnyttjar sin ensidiga option enligt Värdepappersvillkoren att förlänga Värdepapperens löptid och Värdepappersinnehavarna inte motsätter sig sådant utnyttjande, kommer investerare i Värdepapperen att erhålla eventuella slutbetalningar enligt Värdepapperen senare än planerat. I sådana fall bär Värdepappersinnehavarna risken för dålig utveckling av Referensportföljen under förlängningsperioden, vilket kan resultera i en nästan total förlust av det investerade kapitalet. Specifika risker relaterade till justeringar av nivån på Referensportföljen eller Villkoren för Värdepapperen av Emittenten och Beräkningsagenten. Emittentens och Beräkningsagentens justeringar av nivån på Referensportföljen eller Villkoren för Värdepapperen som görs i enlighet med Villkoren för Värdepapperen, om de är felaktiga eller otillräckliga, kanske inte bevarar det underliggande konceptet eller beräkningen av Referensportföljen som tidigare användes för sådana förändringar och kan därför ha en negativ effekt på värdet på Värdepapperen. Detta kan resultera i en partiell förlust av det investerade kapitalet. Specifika risker relaterade till marknadspriset på Värdepapperen. Potentiella investerare bär risken att marknadspriset på Värdepapperen kan fluktuera under Värdepapperens löptid, inklusive, utan begränsning, som ett resultat av utvecklingen för enskilda Beståndsdelar i Referensportföljen eller för Referensportföljen som helhet. Följaktligen bär Värdepappersinnehavare risken att om de kan sälja några Värdepapper före förfallodatumet, kan försäljningsintäkterna falla under (inklusive betydligt under) det kapitalbelopp som initialt investerats i Värdepapperen och investerare skulle då förlora en del eller nära hela det investerade kapitalet. Specifika risker relaterade till Värdepapperens likviditet. Potentiella investerare bär risken att det inte finns någon likvid marknad för handel med Värdepapperen. Detta innebär att de kanske inte kan sälja Värdepapperen vid en tidpunkt som de själva väljer. Detta kan i sin tur leda till att potentiella investerare får ett lägre försäljningspris än de skulle ha fått om det hade funnits en likvid marknad. Specifika risker i samband med potentiella intressekonflikter hos Emittenten och dess dotterbolag. Emittenten och dess dotterbolag kan ha kommersiella intressen som står i konflikt med Värdepappersinnehavarnas intressen (till exempel till följd av Emittentens engagemang i andra transaktioner eller Emittentens befintliga affärsrelation med emittenten av någon av Referensportföljens Beståndsdelar i Referensportföljen) och som kan påverka värdet och/eller handeln med Värdepapperen. Detta kan i sin tur leda till att Värdepappersinnehavare vid försäljning av Värdepapper som de innehar får mindre än vad de skulle ha fått utan sådana intressekonflikter.

och/eller till och med **drabbas av en partiell förlust av det investerade kapitalet.**

Specifika risker i samband med potentiella intressekonflikter hos Referensportföljrådgivaren. Referensportföljrådgivaren kanske inte bara agerar som Referensportföljrådgivare med avseende på Referensportföljen, utan kan samtidigt agera som kapitalförvaltare eller finansiell rådgivare vad gäller Värdepappersinnehavare, vilket kan leda till potentiella konflikter mellan Värdepappersinnehavarnas intressen och Referensportföljrådgivarens intressen, särskilt när Referensportföljrådgivaren erhåller en avgift från Emittenten i enlighet med Värdepapperen. Detta kan leda till sämre resultat för Referensportföljen som helhet och därmed till lägre avkastning för Värdepappersinnehavarna.

Specifika risker som har att göra med bristen på direkt korrelation mellan resultatet för enskilda Referensportföljkomponenter och Referensportföljens totala resultat. Potentiella investerare löper risken att den positiva utvecklingen för enskilda Komponenter i Referensportföljen inte direkt korrelerar med en övergripande positiv utveckling för Referensportföljen. Även om en eller flera av Referensportföljens Beståndsdelar som ingår i Referensportföljen har en positiv utveckling, kan Referensportföljens utveckling som helhet bli negativ om utvecklingen för de andra Beståndsdelarna i Referensportföljen är negativ i större utsträckning.

Specifika risker i samband med att Värdepappersinnehavare inte har någon möjlighet att få tillgång till Referensportföljkomponenterna. Potentiella investerare bör vara medvetna om att Värdepapperen inte skapar någon rättighet, äganderätt eller regress till någon av de Komponenter i Referensportföljen som från tid till annan ingår i Referensportföljen. Följaktligen är Värdepappersinnehavarna i samband med alla betalningar vad gäller Värdepapperen enbart exponerade för Emittentens kreditrisk och har ingen tillgång till underliggande tillgångar.

Emittenten avser att emittera och erbjuda Värdepapperen till allmänheten i syfte att anskaffa finansiering för allmänna affärsändamål inom UBS-koncernen. Emittenten är därför fri att använda emissionslikviden och det finns i synnerhet ingen skyldighet att investera i Referensportföljkomponenterna.

Garantiavtal ("**underwriting agreement**")

En överenskommelse har träffats om att Managern fullt ut ska underteckna en nyemission av Värdepapperen på eller efter respektive Emissionsdag genom en garantiavtal ("**underwriting**"), och erbjuda Värdepapperen till försäljning enligt villkor med ändringar förbehållna i Jurisdiktion(erna) för Erbjudande till Allmänheten.

De mest väsentliga intressekonflikterna

Emittenten och dess dotterbolag kan ingå transaktioner som relaterar till Värdepapperen på ett eller annat sätt, antingen för egen räkning eller på uppdrag av en kund. Sådana transaktioner är inte nödvändigtvis gynnsamma för Värdepappersinnehavarna, och kan ha såväl en positiv som en negativ effekt på värdet av Referensportföljens Beståndsdelar som ingår i Referensportföljen och, följaktligen, på värdet av Värdepapperen. Vidare kan dotterbolag till Emittenten vara motparter i hedgningstransaktioner som relaterar till Emittentens förpliktelser under Värdepapperen. Som ett resultat kan intressekonflikter uppstå mellan dotterbolag till Emittenten såväl som mellan dessa bolag och investerare, med avseende på skyldigheter beträffande beräkningen av kursen för Värdepapperen och andra därmed förknippade fastställanden.

Inom ramen för erbjudandet och försäljningen av Värdepapperen, kan Emittenten eller dotterbolag direkt eller indirekt betala arvoden av olika storlek till tredje parter, såsom distributörer eller investeringsrådgivare, eller erhålla arvoden av olika storlek, inklusive sådana som tas ut i samband med distribution av Värdepapperen, från tredje parter. Potentiella investerare bör vara medvetna om att Emittenten kan behålla arvoden helt eller delvis.
