Prospectus

This document constitutes a prospectus (the "**Prospectus**") for the purposes of Article 6(3) of Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017, as amended (the "**Prospectus Regulation**").

This Prospectus contains information relating to the issue by Morgan Stanley & Co. This Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* of the Grand Duchy of Luxembourg ("**CSSF**") as competent authority under the Prospectus Regulation. The CSSF only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of either the Issuer or the quality of the Securities that are the subject of this Prospectus and investors should make their own assessment as to the suitability of investing in the Securities.

In accordance with Article 6(4) of the Luxembourg act relating to prospectuses for securities dated 16 July 2019 (*Loi du 16 juillet 2019 relative aux prospectus pour valeurs mobilières et portant mise en œuvre du règlement (UE) 2017/1129* (the "**Luxembourg Law on Prospectuses**")) CSSF gives no undertaking as to the economic and financial soundness of the transaction or the quality or solvency of the Issuer.

This Prospectus has been approved on 4 September 2025 and is valid until expiration of 4 September 2026. The obligation to supplement this Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply once the Securities are admitted to trading on the regulated market of Luxembourg Stock Exchange, which is a regulated market for the purposes of Directive 2014/65/EU, as amended ("**MiFID II**").

This Prospectus incorporates by reference the documents listed in "Incorporation by Reference" below.

Listing and admission to trading

Application will be made by the Issuer (or on its behalf) to the Luxembourg Stock Exchange for the Securities to be listed on its Official List and to be admitted to trading on its regulated market, which is a regulated market for the purposes of MiFID II. Application will also be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the Nordic MTF operated by Nordic Growth Market NGM AB, which is not a regulated market for the purposes of MiFID II. No assurances can be given that such applications for listing and admission to trading will be granted (or, if granted, will be granted by the issue date of the Securities).

Programme

The Securities have been issued under the German Programme for Medium Term Securities of the Issuer (and Morgan Stanley B.V. and Morgan Stanley Europe SE as further issuers). The Programme was established on 26 June 2014.

U.S. securities and tax law considerations

The Securities may not be offered, sold, pledged, assigned, delivered or otherwise transferred, exercised or redeemed at any time, directly or indirectly, within the United States (which term includes the territories, the possessions and all other areas subject to the jurisdiction of the United States) or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act).

Status

The Securities are senior unsecured obligations of the Issuer and all payments on the Securities and the repayment of principal are subject to the credit risk of the Issuer. The Securities are not deposits or savings accounts and are not insured by the U.S. Federal Deposit Insurance Corporation or any other governmental agency or any other non-governmental body (instrumentality) or deposit protection scheme anywhere, nor are they obligations of, or guaranteed by, a bank.

Benchmarks Regulation: Article 29(2) statement on benchmarks

Amounts payable under the Securities are calculated by reference to the performance of the MS 7% Risk Control ER Index linked to Global Equity Absolute Return Fund. Such index is administered by Morgan Stanley & Co. International plc, who as at the Issue Date, does not appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to Article 36 of the Benchmarks (Regulation (EU) 2016/2011) (the "**Benchmarks Regulation**"). As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmarks Regulation apply, such that Morgan Stanley & Co. International plc is not currently required to obtain recognition, endorsement or equivalence.

IMPORTANT NOTICE

This Prospectus has been prepared on the basis that offers are not made within an exemption from the requirement to publish a prospectus under Article 1(4) of the Prospectus Regulation (a "**Non-exempt Offer**"). Any person making or intending to make a Non-exempt Offer of Securities on the basis of this Prospectus must do so only with the Issuer's consent – see "Consent to the use of the Prospectus in connection with Non-exempt Offers" in the section entitled "General Information" below.

The Prospectus should be read and construed with any supplement hereto and with any other documents incorporated by reference.

The language of this Prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

No person has been authorised by the Issuer to issue any statement which is not consistent with or not contained in this document, any other document entered into in relation to the Programme or any information supplied by the Issuer or any information as in the public domain and, if issued, such statement may not be relied upon as having been authorised by the Issuer.

No person may use the Prospectus for the purpose of an offer or solicitation if in any jurisdiction such use would be unlawful. In particular, this document may only be communicated or caused to be communicated in the United Kingdom in circumstances in which section 21(1) of the Financial Services and Markets Act 2000 does not apply. Additionally, the Securities will not be registered under the United States Securities Act of 1933, as amended or the securities laws of any state in the United States. Therefore, Securities may not be offered, sold or delivered, directly or indirectly, within the United States or to or for the account or benefit of U.S. persons.

This Prospectus does not constitute an offer of or an invitation to subscribe for or purchase the Securities and should not be considered as a recommendation by the Issuer that any recipient of this Prospectus should subscribe for or purchase the Securities. Each recipient of this Prospectus will be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer and of the particular terms of the Securities.

Each potential investor must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Securities is fully consistent with its (or if it is acquiring the Securities in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Securities as principal or in a fiduciary capacity) and is a fit, proper and suitable investment for it (or if it is acquiring the Securities in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Securities. The Issuer disclaims any responsibility to advise potential investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on the Securities. If a potential investor does not inform itself in an appropriate manner with regard to an investment in the Securities, the investors risk disadvantages in the context of its investment.

A potential investor may not rely on the Issuer or any of its respective affiliates in connection with its determination as to the legality of its acquisition of the Securities or as to the other matters referred to above.

An investment in the Securities entails certain risks, which vary depending on the specification and type or structure of the Securities.

Each potential investor should determine whether an investment in the Securities is appropriate in its particular circumstances. An investment in the Securities requires a thorough understanding of the nature of the relevant transaction. Potential investors should be experienced with respect to an investment and be aware of the related risks.

An investment in the Securities is only suitable for potential investors who:

- **have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Securities and the information contained in the Prospectus or any supplement thereto;**
- **have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Securities will have on their overall investment portfolio;**
- **understand thoroughly the terms of the relevant Securities and are familiar with the behaviour of any relevant underlyings and financial markets;**
- **are capable of bearing the economic risk of an investment in the Securities until the maturity of the Securities; and**
- **recognise that it may not be possible to dispose of the Securities for a substantial period, if at all before maturity.**

The trading market for debt securities, such as the Securities, may be volatile and may be adversely impacted by many events.

Any person intending to use the Securities as a hedging instrument should recognise the correlation risk. The Securities may not be a perfect hedge to an underlying or portfolio of which the underlying forms a part. In addition, it may not be possible to liquidate the Securities at a level which directly reflects the price of the underlying or portfolio of which the underlying forms a part. Potential investors should not rely on the ability to conclude transactions during the term of the Securities to offset or limit the relevant risks; this depends on the market situation and, in case of a Security linked to an underlying, the specific underlying conditions. It is possible that such transactions can only be concluded at an unfavourable market price, resulting in a corresponding loss for the Holder.

IN CONNECTION WITH THE ISSUE OF THE SECURITIES, ANY DISTRIBUTION AGENT OR ANY OTHER AGENT SPECIFIED FOR THAT PURPOSE AS THE STABILISING MANAGER (OR ANY PERSON ACTING FOR THE STABILISING MANAGER) MAY OVER-ALLOT OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF ANY OF THE SECURITIES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL FOR A LIMITED PERIOD. HOWEVER, STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISING ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE SECURITIES IS MADE AND, IF COMMENCED, MAY CEASE AT ANY TIME, BUT MUST BE BROUGHT TO AN END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE SECURITIES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE RELEVANT SECURITIES. ANY STABILISING ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE STABILISING MANAGER (OR ANY PERSON ACTING FOR THE STABILISING MANAGER) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

1.2.3 What are the key risks that are specific to the Issuer?

Risks Relating to MSIP

Holders of Securities issued by MSIP bear the credit risk of MSIP, that is the risk that MSIP is not able to meet its obligations under the Securities, irrespective of how any principal or other payments under the Securities are to be calculated. If MSIP is not able to meet its obligations under the Securities, then that would have a significant negative impact on the investor's return on the Securities and an investor may lose its entire investment.

The following key risks affect Morgan Stanley and since Morgan Stanley is the ultimate holding company of MSIP, also impact MSIP.

Risks relating to the financial situation of Morgan Stanley

Morgan Stanley's results of operations may be materially affected by factors such as market fluctuations and global financial market and economic conditions.

Risks relating to the operation of Morgan Stanley's business activities

Morgan Stanley is subject to operational risks, including a failure, breach or other disruption of its operations or security systems or those of Morgan Stanley's third-parties (or third-parties thereof), as well as human error or malfeasance, which could adversely affect its businesses or reputation. A cyber-attack, information or security breach or a technology failure of Morgan Stanley or a third party could adversely affect Morgan Stanley's ability to conduct its business, manage its exposure to risk or result

in disclosure or misuse of confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm.

Legal, Regulatory and Compliance Risk

Morgan Stanley is subject to the risk of legal or regulatory sanctions, material financial loss including fines, penalties, judgments, damages and/or settlements, limitations on its business or loss to reputation it may suffer as a result of its failure to comply with laws, regulations, rules, related self-regulatory organization standards and codes of conduct applicable to its business activities. Morgan Stanley is also subject to contractual and commercial risk, such as the risk that a counterparty's performance obligations will be unenforceable. Additionally, Morgan Stanley is subject to anti-money laundering, anti-corruption and terrorist financing rules and regulations.

Other risks relating to Morgan Stanley's business activities

Morgan Stanley faces strong competition from financial services firms and others, which could lead to pricing pressures that could materially adversely affect its revenues and profitability. Further, automated trading markets and the introduction and application of new technologies may adversely affect Morgan Stanley's business and may increase competition.

Early Redemption

Following the occurrence of certain extraordinary events (for example a change in law) the Issuer may redeem the Securities early at an amount determined by the Determination Agent.

Limitations of rights

The presentation period provided in §801 paragraph 1, sentence 1 of the German Civil Code (*Bürgerliches Gesetzbuch*) is reduced to ten years for the Securities.

Restrictions on free transferability

Not applicable. The Securities are freely transferable, subject to the relevant selling restrictions.

1.3.2 Where will the Securities be traded?

Application will be made for the Securities to be admitted to trading on the Luxembourg Stock Exchange's Regulated Market and to be listed on the official list of the Luxembourg Stock Exchange as well as to be admitted to listing and/or trading on the Nordic MTF operated by Nordic Growth Market NGM AB, in each case with effect from the Issue Date.

1.3.3 What are the key risks that are specific to the Securities?

Market value of the Securities and market price risk

The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of additional factors, including but not limited to the movements of reference rates and swap rates, market interest yield rates, market liquidity and the time remaining to the maturity date of the Securities. The price at which a Holder will be able to sell the Securities prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser. Historical values of the reference rates and swap rates should not be taken as an indication of the performance of any relevant reference rate or swap rate during the term of any Security. The historic price of a Security should not be taken as an indicator of future performance of such Security. It is not foreseeable whether the market price of a Security will rise or fall. The Issuer gives no guarantee that the spread between purchase and selling prices is within a certain range or remains constant.

General Risks in respect of structured securities

In general, an investment in Securities by which payments on redemption are determined by reference to the performance of an Index, may entail significant risks not associated with similar investments in a conventional debt security. Such risks include the risks that the Holder could lose all or a substantial portion of the principal of his Securities. The market price of such Securities may be very volatile (depending on the volatility of the relevant Index). Neither the current nor the historical value of the relevant underlying Index should be taken as an indication of future performance of such underlying Index during the term of any Security.

Index Linked Securities

Index Linked Securities are debt securities which do not provide for a predetermined Redemption Amount. A Redemption Amount will depend on the performance of the underlying Index, which itself may contain substantial credit, interest rate, currency exchange or other risks. The value of the underlying Index is subject to fluctuations that are contingent on many factors, such as the business

activities of the Issuer, macroeconomic factors and speculation. Additionally, the historical performance of the underlying Index is not an indication of future performance. Changes in the market price of the underlying Index affect the trading price of the Securities, and it cannot be foreseen whether the market price of the underlying Index will rise or fall. The Redemption Amount might be substantially less than the issue price of the Securities or, as the case may be, the purchase price invested by the Holder and may even be zero in which case the Holder may lose the entire investment.

No deposit protection

The Securities are neither protected by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee Act (*Einlagensicherungsgesetz*).

Risks associated with an early redemption

The Issuer may redeem all outstanding Securities in accordance with certain provisions. In this case, the specified Redemption Amount payable per Security may be less than the issue price or purchase price of the Securities and Holders may therefore lose parts of their invested capital.

No Holder right to demand early redemption if not specified otherwise

Holders have no right to demand early redemption of the Securities during the term. In case the Issuer has the right to redeem the Securities early but provided that the Issuer does not exercise such right and it does not redeem the Securities early in accordance with the terms and conditions of the Securities, the realisation of any economic value in the Securities (or portion thereof) is only possible by way of their sale.

Averaging

The Final Index Level relevant for the calculation of the Redemption Amount is determined based on the arithmetic mean of the values of the underlying Index on each Final Averaging Date. This will limit the extent to which a sudden increase in value or performance of the underlying Index on a single date affects the Final Index Level (and therefore the Redemption Amount).

Secondary markets / market illiquidity

There can be no assurance as to how the Securities will trade in the secondary market or whether such market will be liquid or illiquid or that there will be a secondary market at all. The liquidity of the Securities may also be affected by restrictions on offers and sales of the Securities in some jurisdictions. The Issuer is legally not obligated to quote bid and offer prices (regardless of the market situation) for the Securities or to maintain any such function for the future.

Under the Terms and Conditions of the Securities issued by MSIP each Holder agrees to be bound by the exercise of any U.K. bail-in power by the relevant U.K. resolution authority

By its acquisition of Securities issued by MSIP ("**MSIP Securities**"), each Holder (including each beneficial owner) shall be deemed to have acknowledged, accepted, consented and agreed to be bound by the effect of the exercise of the U.K. bail-in power by the relevant U.K. resolution authority. RISK FACTORS

Before deciding to purchase the Securities, potential investors should carefully review and consider the following risk factors and the other information contained in this Prospectus. Should one or more of the risks described below materialise, this may have a material adverse effect on the business, prospects, shareholders' equity, assets, financial position and results of operations (*Vermögens-, Finanz- und Ertragslage*) or general affairs of the Issuer or the Morgan Stanley Group. Moreover, if any of these risks occur, the market value of the Securities and the likelihood that the Issuer will be in a position to fulfil its payment obligations under the Securities may decrease, in which case Holders could lose all or part of their investments. Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with the Securities are also described below.

The Issuer believes that the risk factors described below represent the principal risks inherent in investing in the Securities. However, the Issuer may be unable to pay principal or other amounts on or in connection with Securities for other unknown reasons than those described below. Additional risks of which the Issuer is not presently aware could also affect the business operations of the Issuer or the Morgan Stanley Group and have a material adverse effect on their business activities, financial condition and results of operations. Prospective investors should read the detailed information set out elsewhere in this Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision.

Potential investors in Securities are explicitly reminded that an investment in the Securities entails financial risks which if occurred may lead to a decline in the value of the Securities. Potential investors in Securities should be prepared to sustain a total loss of their investment in the Securities.

The following risk factors are organized in categories depending on their respective nature. In each category the most material risk factors, based on the probability of their occurrence and the expected magnitude of their negative impact, are mentioned first.

Consisting of the Risk Factors:

Consisting of the Risk Factors:

- 2.1 Secondary markets / market illiquidity (Base Prospectus, page 60-61);
- 2.2 Risk relating to fees and/or other additional costs embedded in the issue price (Base Prospectus, page 62-63);

3. Risks relating to the underlying

Consisting of the Risk Factors:

- 3.1 Index Linked Securities (Base Prospectus, page 63-64);
- 3.2 Effect of the liquidity of the underlying index on the pricing of the Security (Base Prospectus, page 68);
- 3.3 Fluctuations in value of a component of the relevant underlying (Base Prospectus, page 68);
- 3.4 **Risks pertaining to the MS 7% Risk Control ER Index linked to Global Equity Absolute Return Fund**
 - 3.4.1 **Weights** – With respect to baskets with more than one Index Component, the Weight applied to each Index Component is determined by a rules-based algorithm. The correlation between the Index and Index Components, and the correlation between the Index Components, may vary over time and may increase or decrease by reference to a variety of factors, which may include macro-economic factors and speculation. The Weights applied may not be optimal weights.
 - 3.4.2 **Costs** – The calculation of the Index Level may include a deduction for certain costs. Such costs are calculated in accordance with the methodology specified in this Description. Any such deduction(s) shall mean that the Index Level is less than would be the case if no costs were deducted.
 - 3.4.3 **Leverage** – The formula used for calculating the Index Level in respect of an Index Business Day contains a multiplier in respect of the Base Index Level. Therefore, the percentage change in the performance of the Index on each Index Business Day can be greater than any actual positive and/or negative performance of the Base Index.

Prospective investors should note that financial products or transactions referencing an index which include such a multiplier or leverage factor represent a very speculative and risky form of investment, since any loss in value of the relevant underlying reference asset may carry the risk of a disproportionately higher loss on the relevant financial product or transaction.

- 3.4.1 ***Indices linked to the performance of funds*** - Investments offering direct or indirect exposure to the performance of funds are generally considered to be particularly risky and may bear similar risks, including but not limited to, market risks in relation to a direct investment in funds.

Financial Product Investors should also be aware that if one or more events occurs in relation to the Fund or any Fund Service Provider, including the insolvency of the Fund or Fund Service Provider, the Index Sponsor shall determine whether the procedures under Section 10.1 (*Adjustment Events*) will apply. Taking any actions pursuant to such procedures may have an adverse effect on the return and risk profile of Financial Products and consequently, the value of such Financial Products and the return on any Financial Product may be considerably less than that originally anticipated by a Financial Product Investor.

- 3.4.2 ***No duty to monitor the occurrence of Fund Events*** – No member of the Morgan Stanley Group has the obligation to monitor or determine if a Fund Event has occurred at any time or to take any action in respect thereof. In certain circumstances it may be the case that if action were taken by the Index Sponsor at a different time or at all, the terms of any adjustment or other consequential determination made in respect of the Index would have resulted in a higher return to Financial Product Investors.

- 3.4.3 ***Investment risks in relation to funds*** - Financial Product Investors should note that there are substantial risks in directly or indirectly investing in funds including, without limitation, the following:

- (a) different types of funds are subject to differing levels of regulatory supervision;
- (b) funds may have varying restrictions on leverage. Leverage presents the potential for a higher rate of return but also increases the volatility of the fund and increases the risk of a total loss of the amount invested;
- (c) funds may have differing investment restrictions and some funds may invest in assets which are illiquid or difficult to transfer. This may have an effect on the realisation of such assets and in turn, the value and performance of the fund. In addition, a fund's assets or investments may be concentrated in a few markets, countries, industries, commodities, sectors of an economy or issuers. If so, adverse movements in a particular market, country, industry, commodity, economy or industry or in the value of the securities of a particular issuer could have a severely negative effect on the value of such fund. In addition, a fund may use a single advisor or employ a single strategy, which could mean a lack of diversification and higher risk;
- (d) substantial redemptions by holders of interests in a fund within a short period of time could require the fund's investment manager(s) and/or advisor(s) to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of the fund's assets; and
- (e) the performance of a fund will be heavily dependent on the performance of investments selected by its advisors or investment managers and the skill and expertise of such fund service providers in making successful and profitable investment decisions. Such skill and expertise may be concentrated in a number of the advisor's or investment manager's key personnel. Should these key personnel leave or become no longer associated with the fund's advisor or investment manager, the value or profitability of the fund's investments may be

adversely affected as a result. The past performance of a fund advisor or investment manager, or any investment strategy adopted by such entity in respect of any other fund, may not be reflective of the present or future performance or strategy of a fund.

- 3.4.4 ***Determinations made by the Index Sponsor in respect of Potential Adjustment Events and Fund Events may have an adverse effect on the value of a Financial Product*** - Upon the determination by the Index Sponsor that a Fund Potential Adjustment Event has occurred, the Index Sponsor shall determine whether such Fund Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Interest and, if so, whether the procedures under Section 10.1 (*Adjustment Events*) will apply, or if an Extraordinary Event has occurred the procedures under Section 10.1 (*Adjustment Events*) will apply which may, in each case, adversely affect the Index Level and, therefore, the value of a Financial Product.

Fund Potential Adjustment Events include, amongst other things (a) a sub-division, consolidation or re-classification of Fund Interests, (b) an extraordinary dividend, (c) a repurchase by the relevant Fund of the relevant Fund Interests or (d) any event having a dilutive or concentrative effect on the value of the relevant Fund Interest. Fund Events include, amongst other things, (1) a nationalisation of the relevant Fund Interest, (2) the occurrence of one or fund insolvency events, (3) a breach of strategy by the relevant Fund and (4) a force majeure event in respect of the relevant Fund Interests.

- 3.4.5 ***Exposure*** – The Effective Exposure is determined by a rules-based algorithm. The correlation between the Index and the Index Components may vary over time and may increase or decrease by reference to a variety of factors, which may include macro-economic factors and speculation.

- 3.4.6 ***Reform of interest rate and other "benchmarks"*** – The use and application of benchmarks such as EURIBOR in transactions and other documents have been the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such "benchmarks" to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on the Index or any of its constituents. Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain "benchmarks, " trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance of certain "benchmarks. " The disappearance of a "benchmark" or changes in the manner of administration of a "benchmark" could have materially adverse consequences in relation to the Index or any of its constituents. In particular, but without limitation, any change, cessation, increase in costs or other event relating to a "benchmark" may result in the occurrence of a Disruption Event in relation to the Index, pursuant to which the Index Sponsor may take action in accordance with this Description.

- 3.4.7 ***Different methods for calculating volatility may give different results*** – There are different methods for calculating volatility, and using a different method from the method used for the purposes of the Index may give a different result. The volatility targeting methodology of the Index measures volatility with reference to a specified number of days. Measuring volatility over a different number of days may give a different result.

- 3.4.8 ***Volatility targeting may be unsuccessful*** - The volatility targeting methodology of the Index may not succeed in maintaining the annualised volatility of the level of the Index at the volatility target specified in respect of it. The actual annualised volatility of the level of the Index may be higher than or lower than the volatility target that is specified

in respect of it. The volatility targeting methodology of the Index will not prevent a decrease in the level of the Index.

- 3.4.9 ***Volatility targeting may result in reduced performance*** – The volatility targeting methodology of the Index may result in the exposure of the Index to the Index Components being considerably less than 100%. This means that the gains of any Financial Product may be significantly less than the gains of any investment product linked to the Index Components.
- 3.4.10 ***Rebalancing Period*** – The Index rebalances on a monthly basis. However, such period may not be the optimal holding period for the Index Components and a different holding period may produce higher returns.
- 3.4.11 ***The Index may be adjusted by deductions included in the Index Level*** - Notional embedded costs, in the form of a Rebalancing Cost, a Funding Rate, Holding Cost and Funding Spread may be included within the Index and may reduce the Index Level. Any such amounts may be deducted from the performance of the Index with the intention of reflecting synthetically the costs of implementing index servicing costs (which are applicable to the Index rather than the Index Components and are applicable on an ongoing basis) a strategy that mirrors the Index.
- 3.4.12 ***The Index may be adjusted by the deductions of a specified Decrement Rate*** – If so specified in the Description, the Index Level may be adjusted by the deduction of a Decrement Rate, which represents the anticipated synthetic dividend payable by the Index Components, over the life of any transaction in Financial Products. The deduction of a Decrement Rate enables the Index Sponsor to replicate synthetically the economic performance of an index component with a fixed dividend yield.
- 3.4.13 ***The Index performance is subject to fluctuations*** – The Index is a notional, rules-based index comprising the Index Components and the Index Level may decline. The Index methodology described in this Description was developed based on historical data and conditions and there are no assurances that the methodology will generate positive performance in the future. The performance of the Index is dependent on many factors, including developments and trends in the markets for the Index Components. The Index performance can go up as well as down, and can register significant losses, including in some cases that the Index falls to zero. Any past performance of the Index (actual or simulated) is not an indication of its future performance.
- 3.4.14 ***Risks and rewards of a Financial Product*** – Financial Product Investors should ensure that they review the economic terms of the relevant Financial Product and not only the terms of the Index in order to understand the risks and rewards of an investment in such Financial Product.
- 3.4.15 ***The Index is not an investment in the Index Components*** – The Index is calculated as a "notional" index. This means that the Index is calculated by reference to the Index Component Value in respect of each Index Component, however the strategy embedded in the Index means that any return might be higher or lower than the aggregate performance of the Index Components. However, there is no requirement for the Index Sponsor to obtain an exposure in relation to any Index Component in order to calculate the Index.
- 3.4.16 ***A Financial Product Investor will have no rights in respect of the Index Components or any Index Components*** – The investment exposure provided by the Index is synthetic. An investment referenced to an Index therefore not make a Financial Product Investor a holder of, or give a Financial Product Investor a direct investment position in, an Index or any Index Component (or any components thereof).
- 3.4.17 ***An investment in the Index may be subject to dilution, which may limit the gains in such investment*** – The Index may be subject to dilution, such that Financial Product Investors may not benefit fully from increases or decreases (depending on whether the

exposure is long or short) in the value of an Index Component. Dilution means that the return or loss on an investment is subject to a multiplier decreasing exposure to such investment and reducing the volatility and risk of loss should the value of such investment decline, but reducing the potential gain should the value of such investment increase. Financial Product Investors should be aware that if the value of an Index Component increases or decreases, an investment linked to the Index may not have the same magnitude of increased or decreased value as such Index Component.

3.4.18 **No liability** – Notwithstanding any other provision within this Description, and subject as provided by any applicable law or regulation, in no event shall the Index Sponsor or the Index Calculation Agent, acting in each case in such capacity, be liable (whether directly or indirectly, in contract, tort or otherwise) for any loss incurred by any person that arises out of or in connection with the Index, including in relation to the performance of the Index Sponsor or the Index Calculation Agent, as applicable, of any part of its respective role under this Description, provided that nothing shall relieve each of the Index Sponsor and the Index Calculation Agent from any liability arising by reason of fraud or acts or omissions constituting any breach of regulation or other applicable law.

3.4.19 **The Index Sponsor may make adjustments to the Description in certain circumstances** – The Index Sponsor may make adjustments to this Description without consulting with Financial Product Investors in circumstances where the Index Sponsor has determined that such change is not material to Financial Product Investors, including if it is of a formal, minor or technical nature. Before making any other adjustment to this Description, the Index Sponsor will give prior notice to Financial Product Investors. Such adjustments could include, but are not limited to: (i) adjusting any relevant Index Component Value, (ii) replacing or removing an Index Component, (iii) postponing the publication of an Index Level or (iv) suspending or cancelling the Index. Any adjustments made to the Index may impact its future performance and result in an adverse return to a Financial Product Investor.

3.4.20 **Discretion** – This Description confers on each of the Index Sponsor and the Index Calculation Agent the right to make determinations, calculations, adjustments and modifications in relation to the Index and related matters, which involve, in certain circumstances, a degree of discretion in order to ensure that the Index can, where reasonably practicable, continue to be calculated and determined notwithstanding the relevant circumstances or, to allow a delay or a cancellation of the Index (including, without limitation, upon the occurrence of certain Adjustment Events or certain dilutive or concentrative events or other market disruption events in relation to Index Components as specified in this Description). Such adjustments may include, without limitation, adjusting the composition of the Index which exposes Financial Product Investors to the risk that any replacement Index Component may perform differently from the original Index Component, which may have an adverse effect on the performance of the Index.

Each of the Index Sponsor and the Index Calculation Agent will, as far as reasonably practicable, exercise any such discretion with the aim of ensuring that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent. The exercise of these discretions may have a significant effect on the Index and a Financial Product. Financial Product Investors should note that they are exposed to the exercise by the Index Sponsor of such discretions and in exercising such discretions, the Index Sponsor and the Index Calculation Agent have no obligations to consider the interests of any other person including (but not limited to) Financial Product Investors. Each of the Index Sponsor and the Index Calculation Agent, unless otherwise specified, is required to act using reasonable discretion, however, there can be no assurance that the exercise of any such discretion (or the absence of exercise, as the case may be) will not increase or decrease the Index Level and/or alter the volatility of the Index.

3.4.21 **Political and economic factors** – Index Component Values may be influenced by a number of circumstances, including, but not limited to, political events, general

economic conditions, government intervention, changes in balances of payments and trade, domestic and international rates of inflation, international trade restrictions and currency devaluations. Any such circumstance (or a combination of them) may cause unexpected volatility or illiquidity in the relevant markets. The Index may fail to take account of such events and, as a result, investment losses may occur which may in turn have an adverse effect on the performance of a Financial Product.

With respect to any emerging or developing nation, there is the possibility of nationalisation, expropriation or confiscation, political changes, government regulation, social instability or other developments (including war) which could affect adversely the economies of such nations or Index Component Values that are linked or have an exposure to such nations.

- 3.4.22 **Market volatility** – The underlying markets for Index Components (including, without limitation and, if applicable, in commodities, metals, financial instruments, interest rates and indices) may be volatile and subject to sudden fluctuations of varying magnitude, any may be influenced by, amongst other things, government trade, fiscal, monetary and exchange control programmes and policies, national and international political and economic events and changes in interest rates. The volatility of such underlying markets may render it difficult or impossible to predict or anticipate fluctuations in the value of Index Components which could result in losses and an adverse effect on the Index.
- 3.4.23 **Rules-based Index** – The Index is quantitative and rules-based and is not managed actively by the Morgan Stanley Group or any third party. Consequently, the Morgan Stanley Group does not have discretion to change this Description if there are significant changes in the performance of the Index Components that cause the Index to decline significantly or underperform.
- 3.4.24 **Information about the Index is no guarantee of the performance of the Index** – Certain presentations and historical analysis or other statistical analysis materials in respect of the operation and/or potential returns of the Index which may be provided are based on a number of assumptions, historical estimates, simulated analyses and hypothetical circumstances to estimate how the Index may have performed prior to its actual existence. The Index Sponsor may use historical data that is available to calculate the hypothetical level of the Index prior to its inception. If the Index Sponsor determines that such historical data is not available or is incomplete, the Index Sponsor may use alternate sources of data in place of such historical data as well as make certain modifications to the index methodology as it deems necessary to calculate the hypothetical level of the Index prior to its inception. The Index Sponsor provides no assurance or guarantee that the Index will operate or would have operated in the past in a manner consistent with those materials.
- 3.4.25 **Index Base Date** – The Index will only have been calculated since the Index Base Date, being a date determined by the Index Sponsor as the date on which the Index Level would have been equal to the Initial Index Level based on back-testing (using simulated analyses and hypothetical circumstances, as further described in this Description). As such, any historical returns or any hypothetical simulations based on such back-tested data or analyses with respect to the period from the Index Base Date to the date on which Financial Products are first implemented (which may be materially later than the Index Base Date), may not reflect the performance of, and are no guarantee or assurance in respect of the performance or returns of, the Index over any time period.
- 3.4.26 **Limited operating history and unanticipated performance** – The Index is a relatively new strategy. Where limited historical performance data exists with respect to the Index Components and the Index itself, any investment in respect of which returns are linked to the performance of the Index or the Index Components may involve a greater risk than an investment linked to returns generated by an investment strategy with a proven track record. While a longer history of actual performance could

provide more reliable information on which to assess the validity of the Index and on which to base an investment decision, the fact that the Index and the Index Components are relatively new would not allow this. There can be no guarantee or assurance that the Index or the Index Components will operate in a manner consistent with the data available.

- 3.4.27 **Reliance on information** – Calculations related to the Index may rely on information obtained from various publicly available sources. The Morgan Stanley Group and the Index Calculation Agent have relied on and will rely on these sources. In addition, the Morgan Stanley Group and the Index Calculation Agent have not verified independently and will not verify independently the information extracted from these sources. Accordingly, Financial Product Investors are subject to the risk that such third party information is inaccurate or incomplete and, in such circumstances, any such inaccuracy or incompleteness will be reflected in the calculation of the Index and may have a material impact on the performance of the Index.
- 3.4.28 **No disclosure of information** – The Morgan Stanley Group may be in possession at any time of information in relation to Index Components which may not be available to Financial Product Investors. There is no obligation on any member of the Morgan Stanley Group to disclose to Financial Product Investors any such information.
- 3.4.29 **Conflict of interests** – The Morgan Stanley Group (including the Index Calculation Agent and the Index Sponsor) may from time to time engage in transactions involving the Index Components for their own account and/or for the account of their clients and may act as market-maker for such Index Components. Such activities may not be for the benefit of Financial Product Investors and may have an effect on the value of the Index and, consequently, on the value and performance of any Financial Products. In addition, the Morgan Stanley Group may from time to time act in other capacities such as the issuer of investments or the advisor thereof. Morgan Stanley Group entities also may issue, hold or enter into financial instruments and/or enter into derivative contracts in respect of the Index Components and the use of such instruments and/or derivatives may affect the value of the Index Components. Morgan Stanley Group entities may, but are not obliged to, enter into hedging transactions in respect of the Index Components in order to meet obligations in respect of Financial Products or for any other purpose which may affect the value of such components or of any Financial Products. If they do, Morgan Stanley Group entities will have certain rights pursuant to such hedging transactions and/or in relation to any transactions that have given them exposure to Index Components and will pursue actions and take steps as they deem appropriate to protect their own interests.
- In addition, the unwinding of such hedging transactions may affect the value of such Index Components or instruments which may affect the value of the Index. Morgan Stanley Group entities may make gains and/or losses from such hedging activity. In acting in any of these capacities, subject as provided by any applicable law or regulation, no member of the Morgan Stanley Group is obliged to take into account the interests of any person including (but not limited to) Financial Product Investors.
- 3.4.30 **Litigation and disputes** – The Index Sponsor, the Index Calculation Agent or any member of the Morgan Stanley Group may be subject to litigation or arbitration proceedings or disputes with other entities. Any such event may adversely affect the ability of the Index Sponsor or the Index Calculation Agent to perform their duties in respect of the Index and, therefore, may adversely affect the Index and, consequently, any Financial Product.
- 3.4.31 **Morgan Stanley research** – The Morgan Stanley Group may issue research reports on securities or other financial instruments that are, or may become, Index Components. These reports are independent of the obligations of the Index Sponsor and the Index Calculation Agent described in this Description.

- 3.4.32 ***The Index Sponsor's determinations are final and conclusive*** – The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description and has certain discretions relating to the Index. The Index Sponsor retains the discretion to appoint an alternative Index Calculation Agent. The Index Sponsor retains the final discretion as to the manner in which the Index is calculated and constructed. Furthermore, the Index Sponsor has the final authority on the Index and the interpretation and application of this Description. The Index Sponsor makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.
- 3.4.33 ***Tax Considerations*** – In July 2015, the U.S. Treasury Department and the IRS released a notice designating certain “basket contracts” and substantially similar transactions as “transactions of interest,” subject to information reporting requirements as “reportable transactions” under Section 6011 of the Code. The scope of this notice is unclear, and it is therefore possible that instruments linked to the Index could be subject to the notice. Recent case law has put the enforceability of this notice and similar notices into question. However, on July 11, 2024 the U.S. Treasury Department and the IRS proposed new regulations (“Proposed Regulations”) that are substantively similar to the previous notice, designating these same “basket contracts” as “listed transactions” instead of “transactions of interest.” If the instruments linked to the Index are subject to the notice, or if the Proposed Regulations are finalized in their current form and the instruments linked to the Index are subject to the Proposed Regulations, holders of such instruments would be required to report certain information to the IRS, as set forth in the applicable Treasury regulations regarding “reportable transactions”. If the IRS determines such a transaction is a “transaction of interest” or “listed transaction” and you fail to disclose the transaction, you could be subject to penalties. If the Proposed Regulations are finalized as drafted, reporting thereunder may be required even for instruments issued prior to the finalization of the Proposed Regulations. Holders should consult their tax advisers regarding the potential application of this notice and the Proposed Regulations to instruments linked to the Index.

4. Risks Relating to specific Products

Consisting of the Risk Factors:

- 4.1 General Risks in respect of structured securities (Base Prospectus, page 73-75); and
- 4.2 Averaging: The Final Index Level relevant for the calculation of the Redemption Amount is determined based on the arithmetic mean of the values of the underlying Index on each Final Averaging Date. This will limit the extent to which a sudden increase in value or performance of the underlying Index on a single date affects the Final Index Level (and therefore the Redemption Amount).

§2

(Status)

- (1) The obligations under the Securities constitute unsecured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, save for such obligations as may be preferred by mandatory provisions of law.
- (2) Notwithstanding any other agreements, arrangements, or understandings between Morgan Stanley & Co. International plc ("**MSIP**") and any Holder or beneficial owner of Securities issued by MSIP (the "**MSIP Securities**") by purchasing or acquiring the MSIP Securities, each Holder (including each beneficial owner) of MSIP Securities acknowledges, accepts, agrees to be bound by and consents to the effect of the exercise of any U.K. bail-in power (as defined below) by the relevant U.K. resolution authority that may include and result in any of the following, or some combination thereof:
 - (a) the reduction or cancellation of all, or a portion, of the MSIP Securities or any other outstanding amounts due under or in respect of MSIP Securities;
 - (b) the conversion of all, or a portion, of the MSIP Securities into shares or other securities or other obligations of MSIP or another person (and the issue to or conferral on the Holder of such shares, securities or obligations); and/or
 - (c) the amendment or alteration of the maturity of MSIP Securities, including by suspending payment for a temporary period; any U.K. bail-in power may be exercised by means of variation of the terms of MSIP Securities solely to give effect to the exercise by the relevant U.K. resolution authority of such U.K. bail-in power.

With respect to (a), (b) and (c) above, references to principal shall include payments of principal that have become due and payable (including principal that has become due and payable at the maturity date), but which have not been paid, prior to the exercise of any U.K. bail-in power.

Each Holder and each beneficial owner of MSIP Securities further acknowledges and agrees that the rights of the Holders and/or beneficial owners under MSIP Securities are subject to, and will be varied, if necessary, solely to give effect to, the exercise of any U.K. bail-in power by the relevant U.K. resolution authority.

- (3) No repayment of the MSIP Securities shall become due and payable after the exercise of any U.K. bail-in power by the relevant U.K. resolution authority unless, at the time that such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by MSIP under the laws and regulations of the United Kingdom and the European Union applicable to MSIP or other members of the MSIP Group.
- (4) By its acquisition of MSIP Securities, each Holder and each beneficial owner of MSIP Securities acknowledges and agrees that:
 - (a) the exercise of the U.K. bail-in power by the relevant U.K. resolution authority with respect to MSIP Securities shall not give rise to an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Holder to any remedies which are hereby expressly waived; and
 - (b) it shall be deemed to have consented to the exercise of any U.K. bail-in power as it may be imposed without any prior notice by the relevant U.K. resolution authority of its decision to exercise such power with respect to MSIP Securities.
- (5) Upon the exercise of the U.K. bail-in power by the relevant U.K. resolution authority with respect to MSIP Securities, MSIP shall provide notice to the Holders in accordance with §12 as soon as practicable regarding such exercise of the U.K. bail-in power for purposes of notifying Holders of such occurrence. MSIP shall also deliver a copy of such notice to the Fiscal Agent for information purposes only. Any delay or failure by MSIP to give notice shall not affect the validity and enforceability of the U.K. bail-in power nor the effects on MSIP Securities described in this §2 above.
- (6) Upon the exercise of any U.K. bail-in power by the relevant U.K. resolution authority, MSIP and, by its acquisition of MSIP Securities, each Holder (including each holder of a beneficial interest in MSIP Securities) hereby agree that (a) the Fiscal Agent shall not be required to take any directions from Holders, and (b) the Agency Agreement shall impose no duties upon the Fiscal Agent whatsoever, in each case with respect to the exercise of any U.K. bail-in power by the relevant U.K. resolution authority.

Notwithstanding the foregoing, if, following the completion of the exercise of the U.K. bail-in power by the relevant U.K. resolution authority, any MSIP Securities remain outstanding (for example, if the exercise of the U.K. bail-in power results in only a partial write-down of the principal of MSIP Securities), then the Fiscal Agent's duties under the Agency Agreement shall remain applicable with respect to MSIP Securities following such completion to the extent that MSIP and the Fiscal Agent shall agree pursuant to an amendment to the Agency Agreement.

Whereby:

"U.K. bail-in power" means any write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms incorporated in the United Kingdom in effect and applicable in the United Kingdom to MSIP and the MSIP Group, including but not limited to any such laws, regulations, rules or requirements which are implemented, adopted or enacted within the context of a U.K. resolution regime under the U.K. Banking Act 2009 as the same has been or may be amended from time to time (whether pursuant to the Banking Reform Act 2013, secondary legislation or otherwise), pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled, amended, transferred and/or converted into shares or other securities or obligations of the obligor or any other person (and a reference to the "relevant U.K. resolution authority" is to any authority with the ability to exercise a U.K. bail-in power).

"**MSIP Group**" means Morgan Stanley & Co. International plc and all of its subsidiary undertakings.

§3
(Interest)

There will not be any periodic payments of interest on the Securities.

§4
(Redemption. Extraordinary Event)

- (1) *Redemption.* Subject to a postponement due to a Disrupted Day pursuant to §4b, the Securities shall be redeemed on 31 October 2030 (the "**Maturity Date**") at the Redemption Amount. The Redemption Amount in respect of each Security shall be calculated by the Calculation Agent by applying the relevant determinations by the Determination Agent and in accordance with the provisions hereof and shall be notified to the Holders in accordance with §12 by the Determination Agent immediately after being determined.
- (2) *Additional Disruption Event.* In the event of an Additional Disruption Event (other than Change in Law, Hedging Disruption and Increased Cost of Hedging) the Issuer may redeem all, or some only, of the Securities then outstanding at the Early Redemption Amount together, if appropriate, with interest accrued to (but excluding) the date of redemption upon the Issuer having given not less than 5 Business Days' notice to the Holders in accordance with §12; and not less than 5 Business Days before the giving of such notice, notice to the Fiscal Agent.
- (3) *Tax Call.* Each Security shall be redeemed at the Early Redemption Amount at the option of the Issuer in whole, but not in part, at any time, on giving not less than 30 days' notice to the Holders (which notice shall be irrevocable) by settlement in cash in accordance with §12 if a Tax Event occurs whereby "**Tax Event**" means that: (i) on the occasion of the next payment or delivery due under the Securities, the Issuer has or will become obliged to pay Additional Amounts as provided or referred to in §6 as a result of any change in, or amendment to, the laws or regulations of any jurisdiction where the Issuer has its registered office, where the Fiscal Agent (as set out in §9) and the Paying Agent (as set out in §9) has its registered office, respectively, or any jurisdiction where the Securities have been publicly offered or the United States of America or any political subdivision or any authority thereof or therein having power to tax (each a "**Taxing Jurisdiction**"), or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date; and (ii) such obligation cannot be avoided by the Issuer taking reasonable measures (but not Substitution of the Issuer pursuant to §10) available to it. Before the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Fiscal Agent a certificate signed by an executive director of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and an opinion of independent legal or tax advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such Additional Amounts as a result of such change or amendment.
- (4) *Early Redemption following the occurrence of a Change in Law and/or Hedging Disruption and/or Increased Cost of Hedging.* The Issuer may redeem the Securities at any time prior to the Maturity Date following the occurrence of a Change in Law and/or a Hedging Disruption and/or an Increased Cost of Hedging. The Issuer will redeem the Securities in whole (but not in part) on the second Business Day after the notice of early redemption in accordance with §12 has been published and provided that such date does not fall later than two Business Days prior to the Maturity Date (the "**Early Redemption Date**") and will pay or cause to be paid the Early Redemption Amount (as defined below) in respect of such Securities to the relevant Holders for value on such Early Redemption Date, subject to any applicable fiscal or other laws or regulations and subject to and in accordance with these Terms and Conditions. Payments of any applicable taxes and redemption expenses will be made by the relevant Holder and the Issuer shall not have any liability in respect thereof.

Whereby:

"Hedging Disruption" means that the Issuer is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of issuing and performing its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s); and

- (5) *Redemption Amounts.* For the purposes of §4 and §8, the following applies:

The **"Early Redemption Amount"** in respect of each Security is an amount determined by the Determination Agent, acting in good faith and in a commercially reasonable manner, as at such day as is selected by the Determination Agent (provided that such day is not more than 15 days before the date fixed for redemption of the Securities), to be the amount per Security that a Qualified Financial Institution (as defined below) would charge to assume all of the Issuer's payment and other obligations with respect to such Security per Security as if no Additional Disruption Event, Tax Call and/or Extraordinary Event with regard to such Security had occurred.

For the purposes of the above, **"Qualified Financial Institution"** means a financial institution organised under the laws of any jurisdiction in the United States of America, the European Union or Japan, which, as at the date the Determination Agent selects to determine the Early Redemption Amount, has outstanding securities with a stated maturity of one year or less from the date of issue of such outstanding securities and such financial institution is rated either:

- (1) A2 or higher by S&P Global Ratings or any successor, or any other comparable rating then used by that successor rating agency, or
- (2) P-2 or higher by Moody's Investors Service, Inc. or any successor, or any other comparable rating then used by that successor rating agency,

provided that, if no Qualified Financial Institution meets the above criteria, then the Determination Agent shall, in good faith, select another qualified financial institution whose issued security maturity and credit rating profile comes closest to the above requirements.

§4b

(Successor Index. Determination Agent Adjustment. Correction of the Index. Disrupted Days. Extraordinary Event. Additional Disruption Event)

- (1) *Successor Index.* If the Index is not calculated and announced by the Index Administrator but is calculated and announced by a successor to the Index Administrator (the "**Successor Index Administrator**") acceptable to the Determination Agent or replaced by a successor index using, in the determination of the Determination Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation, of the Index (the "**Successor Index**"), then such index shall be deemed to be the Index so calculated and announced by the Successor Index Administrator or that Successor Index, as the case may be.

(2) *Determination Agent Adjustment.*

- (a) If on or prior to any Index Valuation Date the Index Administrator permanently cancels the Index and no Successor Index exists (an "**Index Cancellation**") or an Administrator/Benchmark Event occurs (whereby an Administrator/Benchmark Event shall be deemed to have occurred on the Administrator/Benchmark Event Date) in respect of the Index, then:
- (i) if an Alternative Pre-nominated Index has been specified in relation to such Index, then the Determination Agent shall attempt to determine an Adjustment Payment.

If the Determination Agent determines an Adjustment Payment,

- (A) it shall notify the Issuer of the Adjustment Payment and if the Adjustment Payment is an amount that the Holder would (but for §4b(2)(a)(i)(C)(bb)) be required to pay to the Issuer in respect of each Security, request the Issuer to notify the Determination Agent whether it intends to redeem the Securities pursuant to Condition §4b(2)(c). If the Issuer does not intend to redeem the Securities pursuant to this §4b(2)(c) then the following provisions of this §4b(2)(a)(i) shall apply.
- (B) the Terms and Conditions shall be amended so that references to the Index are replaced by references to the Alternative Pre-nominated Index;
- (C) the Terms and Conditions shall be adjusted to implement the Adjustment Payment as follows:
- (aa) if the Adjustment Payment is an amount that the Issuer is required to pay in respect of each Security, the Determination Agent shall adjust the Terms and Conditions to provide for the payment of the Adjustment Payment on the Maturity Date or other date when the Securities are redeemed in full; or
- (bb) if the Adjustment Payment is an amount that the Holder would (but for this §4b(2)(a)(i)(C)(bb)) be required to pay to the Issuer in respect of each Security, the Determination Agent shall adjust the Terms and Conditions to provide for the reduction of the amounts due by the Issuer until the aggregate amount of such reductions is equal to the Adjustment Payment, (subject, in the determination of the Determination Agent, to any minimum redemption amount of the Securities which the Determination Agent determines is required pursuant to any applicable law or regulation (including, without limitation, any tax law) and the rules of each listing authority, stock exchange and/or quotation system by which the Securities have then been admitted to listing, trading and/or quotation);
- (D) the Determination Agent shall make such other adjustments to the Terms and Conditions as it determines necessary or appropriate in order to account for the effect of the replacement of the Index with the Alternative Pre-nominated Index and/or to preserve as nearly as practicable the economic equivalence of the Securities before and after the replacement of the Index with the Alternative Pre-nominated Index;
- (E) the Determination Agent shall notify the Issuer, the Fiscal Agent and the Holders of any replacement of the Index by the Alternative Pre-nominated Index, the Adjustment Payment and any other adjustments to the Terms and Conditions, giving summary details of the

adjustment(s), provided that any failure to give such notice shall not affect the validity of the foregoing; and

(F) if the Determination Agent is unable to determine an Adjustment Payment, then §4b(2)(c) shall apply.

(ii) If an Alternative Pre-nominated Index in relation to the Index is not specified, then §4b(2)(c) shall apply.

(b) Index Modification and Index Disruption:

If (i) on or prior to any Index Valuation Date the Index Administrator announces that it will make a material change in the formula for or the method of calculating the Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events) (an "**Index Modification**") or (ii) on any Index Valuation Date, the Index Administrator fails to calculate and announce the Index (provided that the Determination Agent may, in its reasonable discretion (*billiges Ermessen*, § 317 BGB), determine that, in respect of a Multi-Exchange Index, such failure to calculate and announce such Index shall instead be a Disrupted Day in respect of such Index) (an "**Index Disruption**") then the Determination Agent shall determine if such Index Modification or Index Disruption has a material effect on the Securities and, if so, subject to §4b(2)(c), shall calculate the relevant Substitute Value using, in lieu of a published level for that Index, the level for that Index as at that Valuation Date as determined by the Determination Agent in its reasonable discretion (*billiges Ermessen*, § 317 BGB) in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation, but using only those Index Components that comprised that Index immediately prior to that Index Adjustment Event.

(c) Redemption for Index Adjustment Event:

If:

- (i) an Index Cancellation or an Administrator/Benchmark Event occurs and an Alternative Pre-nominated Index is not specified;
- (ii) an Index Cancellation or an Administrator/Benchmark Event occurs and an Alternative Pre-nominated Index is specified but the Determination Agent is unable to determine the Adjustment Payment;
- (iii) an Index Cancellation or an Administrator/Benchmark Event occurs, an Alternative Pre-nominated Index is specified and the Determination Agent determines that the Adjustment Payment would be an amount that the Holder would (but for Condition §4b(2)(a)(i)(C)(bb)) be required to pay to the Issuer in respect of each Security; or
- (iv) an Index Modification or an Index Disruption occurs and it (a) would be unlawful at any time under any applicable law or regulation or (b) would contravene any applicable licensing requirements, in each case for the Determination Agent to calculate the relevant Substitute Value in accordance with Condition §4b(2)(b),

(each an "**Index Adjustment Redemption Event**")

then the Issuer may, at any time thereafter and in its reasonable discretion (*billiges Ermessen*, § 315 BGB), determine that the Securities shall be redeemed in whole (but not in part). If the Issuer so determines that the Securities shall be redeemed, then the Issuer shall give not less than five Business Days' notice to the Holders to redeem the Securities.

The Issuer will redeem the Securities in whole (but not in part) at the Early Redemption Amount within 5 Business Days following the notification to the Holders of the redemption of the Securities in accordance with § 12.

The Issuer's obligations under the Securities shall be satisfied in full upon payment of such amount.

If the Issuer determines that the relevant Securities shall continue, the Determination Agent may make such adjustment as the Determination Agent, in its reasonable discretion (*billiges Ermessen*, § 317 BGB), considers appropriate, if any, to the formula for determining the Index Linked Redemption Amount or the Substitute Value and any other variable relevant to the settlement or payment terms of the Securities, which change or adjustment shall be effective on such date as the Determination Agent shall determine. The Determination Agent shall provide notice to the Holder in accordance with § 12 of any such change or adjustment, giving summary details of the relevant change or adjustment, as soon as reasonably practicable provided that any failure to give such notice shall not affect the validity of any such change or adjustment.

Whereby:

"Administrator/Benchmark Event" means, in respect of any Securities, a determination made by the Determination Agent that any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that any of the Issuer, the Determination Agent or the Index Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use the Relevant Benchmark to perform its or their respective obligations in respect of the Securities.

"Administrator/Benchmark Event Date" means, in respect of an Administrator/Benchmark Event, the date on which the authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is (i) required under any applicable law or regulation; or (ii) rejected, refused, suspended or withdrawn, if the applicable law or regulation provides that the Relevant Benchmark is not permitted to be used under the Securities following rejection, refusal, suspension or withdrawal, or, in each case, if such date occurs before the Issue Date, the Issue Date.

"Alternative Pre-nominated Index" is not specified.

"Adjustment Payment" means in respect of any Security, the payment (if any) determined by the Determination Agent as is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value to or from the Issuer as a result of the replacement of the Index by the Alternative Pre-nominated Index. "Substitute Value" means an index level that is determined by the Determination Agent in its reasonable discretion (*billiges Ermessen*, § 317 BGB).

"Index Adjustment Event" means, in respect of an Index, an Administrator/Benchmark Event, an Index Cancellation, an Index Disruption or an Index Modification.

- (4) *Disrupted Days.* If the Determination Agent in its reasonable discretion (*billiges Ermessen*) pursuant to § 317 BGB and in consideration of the relevant capital market practice and by acting in good faith determines that any Index Valuation Date is a Disrupted Day or not a Scheduled Trading Day, then the Index Valuation Date shall be the first succeeding Index Business Day that the Determination Agent determines is not a Disrupted Day, unless the Determination Agent determines that each of the five Index Business Days immediately following the original date is a Disrupted Day. In that case:

- (a) that fifth Index Business Day shall be deemed to be the Index Valuation Date, notwithstanding the fact that such day is a Disrupted Day; and
 - (b) the Determination Agent shall determine the Index Level as of the relevant Index Valuation Date on that fifth Index Business Day in accordance with the formula for, and method of, calculating the Index last in effect prior to the commencement of the Market Disruption Event using the exchange-traded price on the relevant Exchange (or, if trading in the relevant Index Component has been materially suspended or materially limited, its good faith estimate of the exchange-traded price that would have prevailed but for the suspension or limitation as of the relevant Index Valuation Date) on that fifth Index Business Day of each Index Component comprising the Index.
- (5) *Averaging Date Disruption.* If the Determination Agent in its reasonable discretion (*billiges Ermessen*) pursuant to § 317 BGB and in consideration of the relevant capital market practice and by acting in good faith determines that any Averaging Date is a Disrupted Day, then the Averaging Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the Final Averaging Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date), and (B) the Determination Agent shall determine its good faith estimate of the value of the Index for that Averaging Date.

"**Valid Date**" shall mean a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date does not, or is not deemed to, occur.

"**Averaging Date**" shall mean each Final Averaging Date.

- (6) *Extraordinary Event.* In the event of an Extraordinary Event the Determination Agent shall make such adjustments to the redemption, settlement, payment or any other terms of the Securities as the Determination Agent determines appropriate to account for the economic effect on the Securities of such Extraordinary Event upon the Determination Agent having given not less than 5 Business Days notice to the Holders in accordance with §12; and not less than 7 Business Days before the giving of such notice, notice to the Fiscal Agent (unless the Fiscal Agent acts as Determination Agent).
- (7) *Additional Disruption Event.* In the event of an Additional Disruption Event, the Determination Agent (A) shall determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Additional Adjustment Event made by any Related Exchange (an "**Adjustment by the Related Exchange**"); and (B) if within 10 days after occurrence of the Additional Disruption Event, the Determination Agent determines that no Adjustment by the Related Exchange was made, the Determination Agent may make such adjustments (including a substitution of the Index) to the redemption, settlement, payment or any other terms of the Securities as the Determination Agent determines appropriate to account for the economic effect on the Securities of such Additional Disruption Event. After applying any adjustment in accordance with this clause, the Determination Agent shall give notice (i) to the Holders not less than 5 days after the application of such adjustment in accordance with §12; and (ii) to the Fiscal Agent (unless the Fiscal Agent acts as Determination Agent) not less than 3 days after the application of such adjustment.

and Conditions shall be rounded up or down to the nearest 0.01 SEK, with 0.005 SEK being rounded always downwards.

- (2) *Business Day*. If the date for payment of any amount in respect of any Security is not a Business Day then the Holder shall not be entitled to payment until the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event payment shall be made on the immediately preceding Business Day.

In that event the Issuer shall pay such additional amounts (the **"Additional Amounts"**) as shall result in receipt by the Holders of such amounts as would have been received by them had no such withholding or deduction been required, except that no Additional Amounts shall be payable with respect to any Security:

- (a) as far as German *Kapitalertragsteuer* (including *Abgeltungsteuer*, as well as including church tax, if any) to be deducted or withheld pursuant to the German Income Tax Act (*Einkommensteuergesetz*), even if the deduction or withholding has to be made by the Issuer or its representative and the German Solidarity Surcharge (*Solidaritätszuschlag*) or any other tax which may substitute the German *Kapitalertragsteuer* or *Solidaritätszuschlag*, as the case may be, is concerned; or
- (b) to, or to a third party on behalf of, a Holder where such Holder (or a fiduciary, settlor, beneficiary, member or shareholder of such Holder, if such Holder is an estate, a trust, a partnership or a corporation) is liable to such withholding or deduction by reason of having some present or former connection with any Taxing Jurisdiction, including, without limitation, such Holder (or such fiduciary, settlor, beneficiary, member or shareholder) being or having been a citizen or resident thereof or being or having been engaged in a trade or business or present therein or having, or having had, a permanent establishment therein, other than by reason only of the holding of such Security or the receipt of the relevant payment in respect thereof; or

- (e) to the extent such withholding tax or deduction is payable by or on behalf of a Holder who would have been able to avoid such withholding or deduction by effecting a payment via another Paying Agent in a Member State of the European Union, not obliged to withhold or deduct tax; or
- (f) to the extent such withholding tax or deduction is for or on account of the presentation by the Holder of any Security for payment on a date more than 30 days after the date on which such payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later; or
- (g) any combination of items (a)-(f);

nor shall any Additional Amounts be paid with respect to any payment on a Security to a Holder who is a fiduciary or partnership or who is other than the sole beneficial owner of such payment to the extent such payment would be required by the laws of the Taxing Jurisdiction to be included in the income, for tax purposes, of a beneficiary or settlor with respect to such fiduciary or a member of such partnership or a beneficial owner who would not have been entitled to such Additional Amounts had such beneficiary, settlor, member or beneficial owner been the Holder of the Security.

Notwithstanding anything to the contrary in this §6, the Issuer, any paying agent or any other person shall be entitled to withhold or deduct from any payment of principal on the Securities, and shall not be required to pay any additional amounts with respect to any such withholding or deduction, any withholding tax (i) imposed on or in respect of any Security pursuant to FATCA, the laws of the Federal Republic of Germany, the United Kingdom, or any jurisdiction in which payments on the Securities are made implementing FATCA, or any agreement between the Issuer and any such jurisdiction, the United States or any authority of any of the foregoing entered into for FATCA purposes, or (ii) imposed on or with respect to any "dividend equivalent" payment made pursuant to section 871 or 881 of the United States Internal Revenue Code of 1986, as amended.

- (b) German insolvency proceedings (*Insolvenzverfahren*) or similar proceedings in other jurisdictions are commenced by a court in the relevant place of jurisdiction or the Issuer itself institutes such proceedings, or offers or makes an arrangement for the benefit of creditors generally (otherwise than in connection with a scheme of reconstruction, merger or amalgamation the terms of which have previously been approved by the Holders); or
- (c) the Issuer ceases all or substantially all of its business operations or sells or disposes of its assets or the substantial part thereof and thus (i) diminishes considerably the value of its assets and (ii) for this reason it becomes likely that the Issuer may not fulfil its payment obligations against the Holders under the Securities.

same with no duty to disclose this information to the Holders. Such transactions may not serve to benefit the Holders and may have a positive or negative effect on the value of the underlying index and consequently on the value of the Securities.

The value of the Securities is linked to the positive or negative performance of the MS 7% Risk Control ER Index linked to Global Equity Absolute Return Fund.

The Redemption Amount payable on the Securities is calculated in accordance with the following formula:

a) If the Final Index Level is greater than the Strike Price, the Redemption Amount shall be calculated as follows:

$$\text{SEK } 100,000 \times [\text{Gearing} \times (\text{Final Index Level} - \text{Strike Price}) \times \text{Multiplier}]$$

b) If the Final Index Level is lower than or equal to the Strike Price, the Redemption Amount shall be calculated as follows:

$$\text{SEK } 100,000 \times 0\%.$$

This means that the Redemption Amount depends on and is linked to the Final Index Level, which is calculated based on the arithmetic average of the Index Levels at the Final Averaging Dates.

Accordingly, the Redemption Amount is linked to the value or performance of the Index between the Initial Index Valuation Date and the Final Averaging Dates (irrespective of the level of the Index between these dates).

The values or performance of the Index on these dates will affect the value of the Securities more than any other factor, so that market price or value of the Securities at any time is expected to be affected by changes in the value of the Index to which the Securities are linked.

In connection therewith, an increase in the level of the Index will have a positive effect on the value of the Securities and a decrease in the level of the Index may have a negative effect on the value of the Securities.

2. Risk Factors and Investment Considerations

Each investor in relation to a Financial Product is referred to as a "**Financial Product Investor**". There may be other risks and considerations not set out below that prospective investors should consider that are relevant either to their particular circumstances or more generally, whether arising from market factors or otherwise. 3. Overview

This section provides an overview of a number of features of the Index. There are aspects of the Index to which this section does not refer. Prospective investors should read the entire Description, including (without limitation) Section 2 (Risk Factors and Investment Considerations), before making any investment decision. Capitalised terms not otherwise defined shall have the meaning given to them elsewhere in this Description.

Overview

The Index aims to provide exposure to the Index Components and to maintain the volatility of the Index at a specified level through the use of the volatility target mechanism which adjusts the Effective Exposure if the predicted volatility of the Index exceeds the volatility target by a pre-specified trigger threshold.

An Index Level is calculated in relation to each Index Business Day by the Index Calculation Agent. This will be used in connection with one or more Financial Products issued or entered into by a member of the Morgan Stanley Group. Generally, only a Financial Product issued or entered into by a member of the Morgan Stanley Group is permitted to use or reference the Index (directly or indirectly) but other Financial Products issued or entered into by financial services providers other than members of the Morgan Stanley Group may be permitted to use or reference the Index with the consent of a member of the Morgan Stanley Group. A Financial Product Investor has no ownership or other rights to or in respect of Index Components in its capacity as a Financial Product Investor or any other assets which are from time to time comprised in the Index.

The Index references a "notional" or synthetic exposure to the Index Components and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership. The Index merely identifies the Index Components and a rules-based strategy, the performance of which is used as a reference point for calculating the Index Level.

This Section 3 (*Overview*) is subject to, and qualified by, the remainder of this Description.

4. Index Sponsor

The Index has been developed by Morgan Stanley & Co. International plc ("**MSIP**"). The Index is administered by the index sponsor or any successor thereto (the "**Index Sponsor**"). The initial Index Sponsor is MSIP.

Although the Index Sponsor will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Sponsor considers reliable, the Index Sponsor will not independently verify such information and does not guarantee the accuracy and/or the completeness of the Index or any data included therein.

Neither MSIP nor the Index Sponsor make any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included therein.

Subject as provided by any applicable law or regulation, and without limiting any of the foregoing, in no event shall MSIP or the Index Sponsor have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Subject as provided by any applicable law or regulation, neither MSIP nor the Index Sponsor accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

MSIP in exercising such right is not required to take into account the interests of any Financial Product Investors or transactions linked in whole or in part to the Index.

5. Index Calculation Agent

The Index is calculated by MSIP (or any successor thereto) (the "**Index Calculation Agent**").

The Index Calculation Agent is responsible for compiling and calculating the Index pursuant to this Description. The Index Sponsor retains the discretion to terminate the appointment of the Index Calculation Agent and to appoint an alternative Index Calculation Agent.

Subject as provided by applicable law and regulation, the Index Calculation Agent expressly disclaims all liability for any inaccuracy in calculations and the publication of the Index, the information used for making adjustments to the Index and the actual adjustments, as well as for the quality, accuracy, timeliness or completeness of the information contained in the Index or this Description or for delays, omissions, interruptions in the delivery of the Index or information related to it. No liability to any person shall attach to the Index Calculation Agent in connection with the exercise or non-exercise by it of any powers, duties or discretions.

The Index Calculation Agent makes no representation (implied or otherwise) as to the performance of any Index Component and/or the Index.

The Index Calculation Agent's calculations and determinations in relation to the Index shall be binding on all persons in the absence of manifest error. 7.8 Miscellaneous

The Index Level shall be published by the Index Calculation Agent (rounded to two decimal places, with 0.005 being rounded upwards), as set out in Section 8 (*Publication*).

For the avoidance of doubt, the Index Level is tracked without rounding by the Index Calculation Agent, and all calculations in this Section 7 (*Calculation of the Index*) are based on the unrounded Index Level, while the rounded level is disseminated for publication.

The methodology described in this Section 7 (*Calculation of the Index*) is subject to the provisions set out in Section 10 (*Adjustment and Disruption Provisions*).

7.9 Index Live Date and Retrospective Calculations

The Index has been calculated by the Index Calculation Agent since the Index Live Date on a live basis.

Index performance in respect of the period from (and including) the Index Base Date to (but excluding) the Index Live Date (the "**Back-test Period**") has been simulated and is not actual performance. Accordingly the Index has been calculated retrospectively by the Index Calculation Agent on a hypothetical basis with the Index having an Index Level equal to the Initial Index Level on the Index Base Date.

The Index was launched by the Index Sponsor on the Index Live Date. The Index has been calculated by the Index Calculation Agent for the period from (and including) the Index Base Date. All prospective investors should be aware that any retrospective calculation of the Index means that no actual investment existed at any time during the period of the retrospective calculation and as such, the performance of the Index is purely hypothetical. Past performance (actual or simulated) is not a guide to future performance.

The methodology and the strategy used for the calculation and retrospective calculation of the Index have been developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore past performance is purely theoretical.

The market conditions which existed during the Back-test Period are not necessarily representative of the market conditions which may exist in the future. In addition, the market conditions in the Back-test Period do not reflect the effect on the relevant markets of the launch of the Index and of the delivery of exposures to the Index through Financial Products, which may include any hedging by the provider or issuer of such Financial Products. Where the Index has been developed to identify and to monetise a particular opportunity in the relevant markets, it should be noted that corresponding investments made by market participants, including any hedging by the providers of Financial Products, may erode such an opportunity, and therefore the hypothetical Index performance in respect of the Back-test Period may overstate the actual performance of any Financial Product.

8. Publication

Subject to Section 10 (*Adjustment and Disruption Provisions*) below, the Index Calculation Agent will make available (i) the Index Level in respect of each Index Business Day as soon as reasonably practicable after 8 am London time (the "**Index Publication Time**") on the second Index Business Day immediately following such Index Business Day or where, in the sole discretion of the Index Calculation Agent, publication on such Index Business Day is not possible or practicable, the immediately following Index Business Day on the Bloomberg Page or such other source as the Index Sponsor may select from time to time at its reasonable discretion and (ii) details of any adjustments made to the Index as described in Section 10 (*Adjustment and Disruption Provisions*) to Financial Product Investors.

Subject as provided by applicable law or regulation, the Index Sponsor accepts no liability to any person for any publication, suspension of publication or non-publication of the Index Level for any period or in any place.

Any publication described in this Section 8 (*Publication*) may be restricted, except as otherwise provided by law, by means determined as appropriate for such purpose by the Index Sponsor in its reasonable discretion including, without limitation, restricting access to a limited set of persons in accordance with arrangements agreed between MSIP and such persons.

10. Adjustment and Disruption Provisions

10.1 Adjustment Events

Subject as provided in Section 10.2 (*Adjustment procedures, notification and consultation process*), if the Index Sponsor determines in its reasonable discretion that an Adjustment Event has occurred or may occur, the Index Sponsor may, acting in good faith and a commercially reasonable manner:

- (i) substitute any Index Component, the Index Funding Rate or the Funding Rate (as applicable) which is affected by such Adjustment Event with a replacement component or rate (as applicable), provided that such replacement has substantially similar characteristics to the affected component or rate (as applicable), having regard to the manner in which the affected component or rate (as applicable) is used in the calculation of the Index (as determined by the Index Sponsor in its sole and absolute discretion) and, if so, will (I) determine the effective date of such substitution and (II) make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such substitution; and/or
- (ii) provide data from alternative but comparable sources to the Index Calculation Agent, in each case for such period as it determines appropriate; and/or
- (iii) determine that the Index Component Value in respect of any Index Component which is affected by such Adjustment Event in respect of each Index Business Day following the Index Business Day on which such Adjustment Event occurred (the "**Relevant Day**") shall be equal to the Index Component Value in respect of such Relevant Day; and/or
- (iv) reallocate the portion of the Index exposed to any Index Component which is affected by such Adjustment Event to the cash until the next Index Business Day on which it determines that no Adjustment Event exists (and make such adjustment(s) to the terms of the Index as it deems appropriate to account for the effect on the Index of such reallocation; and/or
- (v) make such determinations and/or adjustments to the terms of the Index as it considers appropriate to determine any part of the Index (including, without limitation, the value of any Index Component) or calculate the Index Level in respect of an Index Business Day; and/or
- (vi) delay calculating and making available the Index Level until the next Index Business Day on which it determines that no Adjustment Event exists; and/or
- (vii) cancel the Index and permanently cease to calculate the Index Level.

10.2 Adjustment procedures, notification and consultation process

The Index is calculated on the basis of algorithmic formulas and therefore no discretion can be exercised by the Index Sponsor or the Index Calculation Agent in the calculation of the Index. The Index Sponsor will, subject as provided below, employ the methodology set out in this Description to calculate the Index. While the Index Sponsor currently employs this methodology, no assurance can be given that fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstances will not arise that would, in the view of the Index Sponsor, necessitate or make desirable a modification or change to this Description.

However, on occasion, there may be situations, outside the pre-defined adjustments and rebalances, which may make an adjustment of the methodology appropriate or necessary to ensure that the Index continues to achieve its objectives. These situations may include fiscal, market, regulatory, juridical, financial or, without limitation, any other circumstance that was not anticipated to occur when the Index was launched.

The Index Sponsor may decide that these situations necessitate or make desirable a modification or change to this Description. Any such decision will however be taken in a commercially reasonable manner and exclusively in order to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it was designed to represent in the sole determination of the Index Sponsor and the Index Calculation Agent.

The Index Sponsor may make any amendment to this Description (a "**Change**") which in its determination is not material to Financial Product Investors, including if it is of a formal, minor or technical nature or to correct a manifest error. In this case the Index Sponsor is not required to consult with Financial Product Investors. Details of the Change will be made available by the Index Sponsor in accordance with Section 8 (*Publication*). For the purposes of determining the materiality of a Change, the Index Sponsor shall consider a change to be material if it may have a potentially material effect on any future level of the Index.

In relation to any Change to this Description other than as described in the immediately preceding paragraph (a "**Material Change**") the Index Sponsor will give prior notice to Financial Product Investors that a Material Change is proposed. Details of the Material Change will then be available upon request to the Index Sponsor to allow Financial Product Investors to give any comments on the proposed Material Change.

The Index Sponsor is required to give at least ten Index Business Days' notice of a Material Change before making this, provided that it may reduce this notice period to not less than one Index Business Day in the case of a Material Change which is required to ensure that the Index may be fully hedged on an effective basis by or on behalf of any member of the Morgan Stanley Group. Modifications or adjustments which the Index Sponsor may make include, without limitation, amendments to the methodology, and substitution or removal of underlying Index Components from the Index, which, in each case, may have a negative impact on the performance of the Index.

Any comments from Financial Product Investors and the Index Sponsor's responses to these will be made accessible to Financial Product Investors upon request to the Index Sponsor, except where the comment provider has requested confidentiality. However any such comments and responses may not be available prior to the Material Change being made.

Subject as provided in the MS Benchmark Statement, if any modification or adjustment is made to the composition or calculation of the Index in accordance with Section 10.2 (*Adjustment procedures, notification and consultation process*), the Index Sponsor will make such modifications or adjustments based on market conditions and other relevant factors as in the judgment of the Index Sponsor are necessary to ensure that the Index continues to reflect, as closely as possible, the underlying economic interest it is designed to represent.

10.3 Consequences of Fund Events

If the Index Sponsor determines that a Fund Event has occurred in respect of a Fund (a "**Relevant Fund**"), then the procedures under Section 10.1 (*Adjustment Events*) will apply. Any such adjustments made in accordance with the foregoing may include adjustments to account for the Removal Value of the Fund Interest in respect of such Relevant Fund instead of the Underlying Fund Price and, if relevant, an amount determined by the Index Sponsor in respect of interest (compounded on a daily basis) on the Removal Value of the Fund Interest in respect of such Relevant Fund accrued at an overnight rate relating to the Index Currency selected by the Index Sponsor from (and including) the date on which any replacement of the Relevant Fund is effective.

Where it is required to determine a valuation of the Relevant Fund for the purposes of this Section 10.3 (*Consequences of Fund Events*) by reference to the Underlying Fund Price of the Fund Interest in respect of such Relevant Fund, the Index Sponsor shall determine the mechanics for calculating such valuation of the Fund Interest in respect of such Relevant Fund (which valuation may be zero) by reference to such sources as it considers appropriate including, but not limited to, the value that a third party on arms' length terms would be willing to pay for the transfer to it of such Fund Interest in respect of the Relevant Fund (or the portion of a hypothetical derivative contract in so far as it relates to the Fund Interest in respect of the Relevant Fund and does not take into account the creditworthiness of any party thereto).

11. Errors and Corrections

If:

- (i) any Index Component Value in respect of any Index Component or other variable, input or other parameter that is used to calculate the Index is subsequently changed or corrected and the change or correction is published by the relevant Index Component Price Source or other data source (as applicable); or
- (ii) the Index Calculation Agent identifies an error or omission in any of its calculations or determinations with respect to the Index Level in respect of any Index Business Day (including, without limitation, following an incorrect implementation of the methodology set out in this Description, an error in data entry, or a manual or system error),

then, in each case, the Index Sponsor may correct and restate any published Index Level in respect of any relevant Index Business Day (including, without limitation, a correction and restatement of the Index Level published for any relevant Index Business Day with retrospective effect) and/or each subsequent Index Business Day. Upon the occurrence of such event, the Index Calculation Agent shall inform the Index Sponsor and MSIP promptly.

The Index Sponsor will determine whether such error requires a change in the composition or calculation of the Index and, if so, the procedures under Section 10.2 (*Adjustment procedures, notification and consultation process*) will apply.

12. Governance

Morgan Stanley has adopted the "Principles for Financial Benchmarks" published by the International Organization of Securities Commissions ("**IOSCO**") on 17 July 2013 (the "**Principles**") on a proportionate basis.

The Index and this Description have been approved in accordance with and are subject to the internal governance procedures implemented by Morgan Stanley in compliance with the Principles and managed by an internal oversight committee (the "**Index Committee**").

The functions of calculation and valuation of the Index on each Index Business Day, as described in this Description, are carried out by a separate team at Morgan Stanley which is organisationally independent from the Index Sponsor.

The remuneration of the team which carries out the function of the Index Calculation Agent is not linked to the performance of the Index.

13. Discontinuation

Notwithstanding Section 10 (*Adjustment and Disruption Provisions*), the Index Sponsor may, in its sole discretion, after consultation with the Index Committee (except where, in the circumstances set out under (iii) below, such consultation is not possible), discontinue calculating and publishing the Index at any time upon the occurrence of any of the following:

- (i) as outlined in Section 10 (*Adjustment and Disruption Provisions*), as the result of an Adjustment Event;
- (ii) the Index Sponsor and/or, where no successor to it is available in the determination of the Index Sponsor, the Index Calculation Agent terminates its index/strategy publication or calculation (as applicable) business;
- (iii) the Index Sponsor and/or the Index Calculation Agent is subject to a voluntary or involuntary liquidation, dissolution or winding-up or institutes or has instituted against it, by a regulator, supervisor or other similar official, a proceeding seeking a judgment of insolvency or bankruptcy or other similar;
- (iv) subject as provided by applicable law or regulation, the Index Sponsor determines that it shall no longer continue to publish the Index; and/or
- (v) the Index Sponsor determines in its sole and absolute discretion that the Index is or will be no longer representative of the economic reality it was intended to measure.

Upon any such discontinuance, the Index Sponsor will use commercially reasonable efforts to publicly announce such discontinuance as soon as is reasonably practicable prior to the effective date.

The Index Sponsor shall determine if a commercially reasonable alternative index, the sponsor of which is a member of the Morgan Stanley Group, is available for use as an alternative to the Index and, to the extent reasonably possible, it shall maintain the original Index in existence in order to facilitate an orderly transition to the alternative index.

14. Important Information

Complaints

The Morgan Stanley Group has a complaints management policy and procedures for receiving, investigating and retaining records concerning complaints, details of which can be provided on request by emailing complaintsms@morganstanley.com. If an investor has a complaint about the Morgan Stanley Group, they should raise it in the first instance with the employee acting for them. If they are not satisfied with the response of that employee (or if they prefer not to raise the matter with that employee) they may email the Compliance Department at complaintsms@morganstanley.com.

OVERVIEW OF THE MS 7% RISK CONTROL ER INDEX LINKED TO GLOBAL EQUITY ABSOLUTE RETURN FUND

This section provides a narrative, non-technical explanation of the intended investment objective of the Index and its calculation methodology. The information in this section is by way of explanation of information appearing in the Index Description. The Index is governed by the provisions set out in the Index Description and therefore a full understanding of the Index can only be achieved with a full reading of that section.

What is the Index?

The Index is a rules-based strategy denominated in SEK which aims to provide exposure to one equity mutual fund, as described below (the "**Fund**"), whilst maintaining a volatility at or around 7% (the "**Target Volatility**"). To pursue this objective, the Index implements a daily "*Risk Control Mechanism*" which adjusts the exposure of the Index in response to the increases or decreases of the volatility of the Fund. When volatility increases, the Index reduces exposure to the Fund and invests in a notional, non-interest bearing, cash investment. When the volatility decreases, the Index increases exposure to the Fund, up to a maximum exposure of 200%, and reduces its exposure to cash.

When the Index's exposure to the Fund is higher than 100%, the Index uses a "leveraged" exposure to the underlying fund. Leverage refers to the practice of using debt to amplify potential returns, by allocating more than 100% of the Index to the underlying fund. The maximum leverage the Index can employ is capped at 200%.

Does the Index represent a physical investment in the Fund?

The Index can be described as a "notional" investment in the Fund or as a "synthetic portfolio" as there is no actual asset held in respect of the Index. The Index simply reflects a strategy calculated using the value of a theoretical investment in each of the relevant components.

What does "Excess Return" mean?

The Index is construed as an "**Excess Return**" asset. This means that the level of the Index is determined net of costs, such as the cost of funding and/or borrowing a hypothetical investor would incur investing in the notional assets that make up the Fund. In practical terms, an Excess Return investment represents the returns of a hypothetical investment in an asset, where such investment is funded with borrowed cash, thus incurring running interest. This is in contrast to a Total Return investment which assumes that such investment is fully funded.

What does "Decrement" mean?

The Index is calculated by deducting a 0.00% per annum* percentage rate (the "**Decrement**") applied daily pro rata to the Index value. This deduction will impact negatively the performance of the Index over time, meaning that the Index annual performance would be on average 0.0% lower than what it would otherwise be without the Decrement.

*Per annum refers to a period of 360 calendar days.

How does the Risk Control Mechanism Work?

The Index targets a volatility at or around 7% by allocating exposure to the Fund based on the realised volatility of the Fund itself. The target weight assigned by the Index to the Fund on any business day is the ratio of 7% to the realised volatility of the Fund. The realised volatility of the Fund is measured using its returns within a 20-business day period ending 2 days prior to the time of calculation.

The realised volatility is a measure of the magnitude of changes in price of a given financial instrument. When the Fund experiences higher volatility, it means greater changes in its price. In such environment, exposure to the Fund can produce unpredictable results. Volatility can anticipate both a decline or a rebound in the Fund. A "volatility target" mechanism aims to achieve a target volatility so that, as volatility increases beyond the target, the Index reduces exposure to the Fund. In practical terms, when exposure to the Fund is reduced, the level of the Index is less sensitive to the volatility of the Fund and therefore will suffer less from a decline in the performance of the Fund. A "volatility target" mechanism

can however also hinder the ability to participate in any increase in the value of the Fund when high volatility is associated with underlying value increase.

It should be highlighted that the minimum exposure to the Fund is 0% even when the Fund volatility has reached a level higher than the Target Volatility. As a result, exposure to the Fund cannot be negative.

Representation of the Index in Diagram

In the above diagram, the target weight represents the percentage weight assigned by the Index to the Fund which is determined by the Risk Control Mechanism.

What impacts the level of the Index?

The main driver of the level of the Index is the performance of the underlying Fund. In general terms, if the Fund increases in value, the Index level will increase as well and vice versa proportionally to the allocation percentage assigned by the Index to the Fund as determined by the Risk Control Mechanism.

However, the Index level is impacted by a number of other components as follows:

- The Index is determined by deducting the cost of funding and/or borrowing a hypothetical investor would incur investing in the Fund. This cost is represented by the Euro Interbank 3-month rate. The higher the borrowing rates, the lower the performance of the Index. In an environment where borrowing rates are high, the Index may exhibit material underperformance when compared to a direct investment in the Fund.
- The Index is calculated by deducting the Decrement, which is deducted daily pro rata. This means that the Index annual performance would be on average 0.0% lower than what it would otherwise be without the Decrement

Om MSIP inte klarar att fullgöra sina förpliktelser enligt Värdepapperen, kommer det ha en väsentlig negativ inverkan på investerarens avkastning på Värdepapperen och en investerare kan förlora hela sin investering.

Följande nyckelrisker påverkar Morgan Stanley och, eftersom Morgan Stanley är det yttersta holdingbolaget för MSIP, även MSIP.

Ett IT-angrepp, en informations- eller säkerhetsöverträdelse eller ett tekniskt

Andra risker hänförliga till Morgan Stanleys affärsverksamheter

Ej tillämpligt. Värdepapperen är fritt överlåtbara, med förbehåll för de relevanta försäljningsbegränsningarna.

1.3.2 Var kommer Värdepapperen att handlas?

Ansökan kommer att göras för att Värdepapperen ska tas upp till handel på den Reglerade Marknaden på Luxemburg-börsen och noteras på Luxemburg-börsens officiella lista samt noteras och/eller tas upp till handel på Nordic MTF som drivs av Nordic Growth Market NGM AB, i varje fall från och med Emissionsdagen.

1.3.3 Vilka är de huvudsakliga riskfaktorerna som är specifika för Värdepapperen?

Marknadsvärdet för Värdepapperen och marknadskursrisk

Värdepapperens marknadsvärde kommer påverkas av Emittentens kreditvärdighet samt ett flertal andra faktorer, bland annat, men inte begränsat till, rörelser hos styrräntor och swapräntor, marknadsavkastningsräntor, marknadslikviditet och den tid som återstår till Värdepapperens förfallodag. Den kurs till vilken en Innehavare kan sälja Värdepapperen före förfallodagen kan vara avsevärt lägre än emissionskursen eller det inköpspris som köparen betalade. Historiska värden på referensräntorna och swapräntorna bör inte tas som en indikation för utvecklingen av någon relevant referensränta eller swapränta under ett Värdepappers löptid. Ett Värdepappers historiska pris bör inte ses som en indikator för Värdepapperets framtida resultat. Det går inte att förutse om ett Värdepappers marknadskurs kommer att stiga eller falla. Emittenten lämnar inga garantier för att spreaden mellan köp- och säljkurser ligger inom ett visst intervall eller förblir konstant.

Allmänna risker hänförliga till strukturerade värdepapper

I allmänhet gäller att en investering i Värdepapper genom vilken inlösenbetalningar fastställs med hänvisning till resultatet av ett Index kan medföra väsentliga risker som inte är förknippade med liknande investeringar i traditionella skuldebrev. Sådana risker omfattar bland annat risken att Innehavaren skulle kunna förlora hela eller en betydande del av kapitalbeloppet för sina Värdepapper. Marknadskursen för sådana Värdepapper kan vara mycket volatil (beroende på volatiliteten hos det relevanta Indexet).

Varken det aktuella eller historiska värdet på det relevanta underliggande Indexet bör tas som en indikation för framtida resultat för det underliggande Indexet under ett Värdepappers löptid.

Värdepapper knutna till index

Värdepapper knutna till index är skuldebrev som inte har några förhandsbestämda Inlösenbelopp. Ett Inlösenbelopp kommer att vara beroende av resultatet för det underliggande Indexet, som i sig kan innehålla väsentliga risker hänförliga till kredit, ränta, valutakurser eller annat. Värdet av det underliggande Indexet är föremål för fluktuationer som beror på flera faktorer, exempelvis Emittentens affärsverksamhet, makroekonomiska faktorer och spekulation. Dessutom är det historiska resultatet för det underliggande Indexet inte någon indikation för framtida resultat. Förändringar i marknadspriset av det underliggande Indexet påverkar Värdepapperens kurs och det går inte att förutse om marknadspriset på det underliggande Indexet kommer att stiga eller falla. Inlösenbeloppet kan vara väsentligt lägre än emissionskursen för Värdepapperen eller, beroende på vad som är tillämpligt, det inköpspris som Innehavaren erlade och kan till och med vara noll i vilket fall Innehavaren kan förlora hela investeringen.

Ingen insättningsgaranti

Värdepapperen är varken skyddade av insättningsskyddsfonden från den tyska bankföreningen (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) eller av den tyska lagen om insättningsgaranti (*Einlagensicherungsgesetz*).

Risker hänförliga till Värdepapper med förtida inlösen

Emittenten får lösa in samtliga utestående Värdepapper i enlighet med vissa bestämmelser. I sådant fall kan det angivna Inlösenbeloppet som ska betalas per Värdepapper vara lägre än emissionskursen eller inköpspriset för Värdepapperen och Innehavare kan därför förlora delar av deras investerade kapital.

Ingen rätt för Innehavare att kräva förtida inlösen om inget annat anges

Innehavare har ingen rätt att begära förtida inlösen av Värdepapperen under löptiden. För det fall Emittenten har rätt att lösa in Värdepapperen i förtid, men förutsatt att Emittenten inte utövar denna rätt och inte löser in Värdepapperen i förtid i enlighet med villkoren för Värdepapperen, är det endast möjligt att realisera något ekonomiskt värde för Värdepapperen (eller delar av därav) genom att sälja dem.

Medelvärdesberäkning

Den Slutliga Indexnivån som är relevant för beräkningen av Inlösenbeloppet bestäms utifrån det aritmetiska medelvärdet av värdena för det underliggande Indexet på varje Slutligt Medelvärdesberäkningsdatum. Detta begränsar i vilken utsträckning en plötslig ökning av värdet eller utvecklingen av det underliggande Indexet på en enskild dag påverkar den Slutliga Indexnivån (och därmed Inlösenbeloppet).

Andrahandsmarknader / marknadsillikviditet

Det finns ingen garanti för hur värdepapperen kommer att handlas på andrahandsmarknaden eller om en sådan marknad kommer vara att likvid eller illikvid eller om det överhuvudtaget kommer att finnas någon andrahandsmarknad. Värdepapperens likviditet kan också påverkas av restriktioner för erbjudanden och försäljningar av värdepapperen i vissa jurisdiktioner. Emittenten är inte rättsligt förpliktad att ange köp- och säljkurser (oavsett marknadssituationen) för värdepapperen eller att upprätthålla någon sådan funktion för framtiden.

I enlighet med Villkoren och Bestämmelserna av Värdepapperen emitterade av MSIP accepterar varje Innehavare att bli bunden av utövandet av varje brittisk bail-in-befogenhet av relevant brittisk resolutionsmyndighet

Genom sitt förvärv av Värdepapper emitterade av MSIP ("**MSIP-värdepapper**"), ska varje Innehavare (inklusive varje verklig huvudman) ansetts ha bekräftat, accepterat, samtyckt och godkänt att bli bunden av verkningen av utövandet av den brittiska bail-in-befogenheten av den relevanta brittiska resolutionsmyndigheten. Om en brittisk bail-in-befogenhet utövas för MSIP avseende MSIP-värdepapper kan Innehavare därmed vara oförmögna att återfå hela eller ens delar av utestående belopp under MSIP-värdepapper eller så kan Innehavare erhålla ett annat värdepapper utfärdat av MSIP (eller en annan person) istället för belopp som är utestående (om något) till Innehavarna av MSIP-värdepapper, vilket kan vara värt avsevärt mindre än beloppet som är utestående till Innehavarna vid upphörande av MSIP-värdepapper.
