B.3 What are the key risks that are specific to the Issuer?

- Risk Relating to the Issuer and Guarantor**

Holders of Securities issued by the Issuer bear the credit risk of the Issuer and/or the Guarantor, that is the risk that the Issuer and/or the Guarantor is not able to meet its obligations under such Securities, irrespective of whether such Securities are referred to as capital or principal protected or how any principal, interest or other payments under such Securities are to be calculated. If the Issuer and/or the Guarantor is not able to meet its obligations under the Securities, then that would have a significant negative impact on the investor's return on the Securities and an investor may lose up to its entire investment.

All material assets of MSBV are obligations of (or securities issued by) one or more Morgan Stanley Group companies. If any of these Morgan Stanley Group companies incurs losses with respect to any of its activities (irrespective of whether those activities relate to MSBV or not) the ability of such company to fulfil its obligations to MSBV could be impaired, thereby exposing holders of securities issued by MSBV to a risk of loss.

The following key risks affect Morgan Stanley and, since Morgan Stanley is the ultimate holding company of MSBV, also impact MSBV:

- Risks relating to the financial situation of Morgan Stanley**

Morgan Stanley's results of operations may be materially affected by market fluctuations and by global and economic conditions and other factors, including changes in asset values. Significant changes to interest rates could adversely affect Morgan Stanley's results of operations. Holding large and concentrated positions may expose Morgan Stanley to losses. These factors may result in losses for a position or portfolio owned by Morgan Stanley.

Morgan Stanley is exposed to the risk that third parties that are indebted to it will not perform their obligations, as well as that a default by a large financial institution could adversely affect financial markets. Such factors give rise to the risk of loss arising when a borrower, counterparty or issuer does not meet its financial obligations to Morgan Stanley.

Liquidity is essential to Morgan Stanley's businesses and Morgan Stanley relies on external sources to finance a significant portion of its operations. Morgan Stanley's borrowing costs and access to the debt capital markets depend on its credit ratings. Morgan Stanley is a holding company, has no business operations and depends on dividends, distributions and other payments from its subsidiaries. Further, Morgan Stanley's liquidity and financial condition have in the past been, and in the future could be, adversely affected by U.S. and international markets and economic conditions. As a result of the foregoing, there is a risk that Morgan Stanley will be unable to finance its operations due to a loss of access to the capital markets or difficulty in liquidating its assets.

- Risks relating to the operation of Morgan Stanley's business activities**

Morgan Stanley is subject to operational risks, including a failure, breach or other disruption of its operations or security systems or those of Morgan Stanley's third parties (or third parties thereof), as well as human error or malfeasance, which could adversely affect its businesses or reputation. A cyberattack, an information or security breach, or a technology failure

of Morgan Stanley or of third parties could adversely affect Morgan Stanley's ability to conduct its business or manage its exposure to risk, or result in disclosure or misuse of personal, confidential or proprietary information and otherwise adversely impact its results of operations, liquidity and financial condition, as well as cause reputational harm. Morgan Stanley's risk management strategies, models and processes may not be fully effective in mitigating its risk exposures in all market environments or against all types of risk. Legal, Regulatory and Compliance Risk The financial services industry is subject to extensive regulation, and changes in regulation will impact Morgan Stanley's business. The application of regulatory requirements and strategies in the U.S. or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders and subject Morgan Stanley to other restrictions. Furthermore, Morgan Stanley may be prevented from paying dividends or taking other capital actions because of regulatory constraints or revised regulatory capital requirements. The financial services industry faces substantial litigation and is subject to extensive regulatory and law enforcement investigations, and Morgan Stanley may face damage to its reputation and legal liability. In addition, a failure to address conflicts of interest appropriately could adversely affect Morgan Stanley's businesses and reputation. Other risks relating to Morgan Stanley's business activities Morgan Stanley faces strong competition from other financial services firms, which could lead to pricing pressures that could materially adversely affect its revenue and profitability. Further, automated trading markets and the introduction and application of new technologies may adversely affect Morgan Stanley's business and may increase competition. Morgan Stanley is subject to numerous political, economic, legal, tax, operational, franchise and other risks as a result of its international operations (including risks of possible nationalization, expropriation, price controls, capital controls, exchange controls, increased taxes and levies, cybersecurity, data transfer and outsourcing restrictions, regulatory scrutiny regarding the use of new technologies, prohibitions on certain types of foreign and capital market activities, limitations on cross-border listings and other restrictive governmental actions, as well as the outbreak of hostilities or political and governmental instability, including tensions between China and the U.S.) which could adversely impact its businesses in many ways. Morgan Stanley may be unable to fully capture the expected value from acquisitions, divestitures, joint ventures, partnerships, minority stakes or strategic alliances, and certain acquisitions may subject its business to new or increased risk. The application of regulatory requirements and strategies in the U.S. or other jurisdictions to facilitate the orderly resolution of large financial institutions may pose a greater risk of loss for Morgan Stanley's security holders and subject Morgan Stanley to other restrictions. Additionally, the risks of climate change manifesting as physical or transition risks could result in increased costs and risks and adversely affect Morgan Stanley's operations, businesses and clients.

The Guarantor’s obligations under the Guarantee constitute direct, general and unsecured obligations of the Guarantor which rank without preference among themselves and <i>pari passu</i> with all other outstanding, unsecured and unsubordinated obligations of the Guarantor, present and future, but in the event of insolvency only to the extent permitted by laws affecting creditors’ rights.

C.3.4	Most material risk factors pertaining to the Guarantor		
The most material risk factors pertaining to Morgan Stanley are listed under section B.3 “What are the key risks that are specific to the Issuer?” above.			
C.4	What are the key risks that are specific to the Securities?		

- The Securities are not deposits or savings accounts and are not insured by the U.S. Federal deposit insurance corporation, the UK Financial Services Compensation Scheme, or any other governmental agency or instrumentality or deposit protection scheme anywhere, nor are they obligations of, or guaranteed by, a bank.
- The terms of the Securities differ from those of ordinary debt securities because the Securities do not pay interest and, on maturity, depending on the performance of the Index, may return less than the amount invested or nothing.
- It is impossible to predict how the level of the Index will vary over time. The historical performance value (if any) of the Index does not indicate the future performance of the Index. Factors such as volatility, interest rates, remaining term of the Securities or exchange rates will influence the price investors will receive if an investor sells its Securities prior to maturity.
- The Index is comprised of a synthetic portfolio of other assets, and its performance may be dependent on the performance of such assets. Returns on the Securities do not reflect a direct investment in underlying shares or other assets comprising the Index. A change in the composition or discontinuance of the Index could adversely affect the market value of the Securities. The Securities are not sold or promoted by the Index or the sponsor of such Index. The Issuer or its affiliates are not liable for the actions or omissions of the sponsor of the Index, any information concerning the Index, the performance of such Index or use thereof in connection with the Securities.
- The Issuer may amend the terms and condition of the Securities, the Guarantee and the deed of covenant dated 17 July 2013 (as amended or supplemented from time to time) in relation to, amongst others, the Securities, without Securityholder consent if, in its opinion, such amendments are not materially prejudicial to Securityholders.
- An investment in the Securities bears the risk that the Issuer or the Guarantor is not able to fulfil its obligations in respect of such Securities at maturity or before maturity of the Securities. In certain circumstances, holders may lose all or a substantial portion of their principal or investment.
- The Issuer has the right to withdraw the offering of the Securities and cancel the issuance of the Securities prior to the end of the subscription period for any reason. Reasons for the cancellation of the offer include, in particular: (i) adverse market conditions, as determined by the Issuer in its reasonable discretion (such as, for example, increased equity market volatility and increased currency exchange rate volatility); or (ii) that the number of applications received at that time is insufficient, in the Issuer's opinion, to make an economically viable issuance
- Unless otherwise stated in the terms and conditions applicable to the Securities, the Securities will not have the benefit of any cross-default or cross-acceleration with other indebtedness of MSBV or Morgan Stanley (as applicable). In addition, a covenant default by Morgan Stanley, as guarantor, or an event of bankruptcy, insolvency or reorganization of Morgan Stanley, as guarantor, does not constitute an event of default with respect to the Securities.
- The market price of Securities may be very volatile. Further, investors in Securities will receive no interest and payment of principal may occur at a different time or in a different currency than expected. The Index may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices. The timing of changes in the Index may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Index, the greater the effect on yield.
- "Benchmarks" are subject to recent national, international and other regulatory reforms, which could have a material impact on any Securities linked to a "benchmark" index, including in any of the following circumstances: (i) certain "benchmarks" may be discontinued, or (ii) the administrator(s) of a "benchmark" may not obtain authorisation/registration or not be able to rely on one of the regimes available to non-EU benchmarks. Depending on the particular "benchmark" and the applicable terms of the Securities, the occurrence of such a circumstance may lead to such benchmark being deemed replaced with an alternative benchmark selected by the Determination Agent, adjustment to the terms and conditions of the Securities or early redemption of the Securities. Any of the above consequences could have a material adverse effect on the value of and return on any such Securities.

B.3**Vilka nyckelrisker är specifika för Emittenten?**

- Risker relaterade till Emittenten och Garanten**

Innehavare av Värdepapper emitterade av Emittenten bär kreditrisken för Emittenten och/eller Garanten, som är risken att Emittenten och/eller Garanten inte kan uppfylla sina åtaganden enligt sådana Värdepapperen, oavsett huruvida sådana Värdepapper är kapitalskyddade eller principalskyddade eller hur kapitalbelopp, räntebelopp eller andra betalningar enligt sådana Värdepapper ska beräknas. Om Emittenten och/eller Garanten inte kan uppfylla sina åtaganden enligt Värdepapperen, kommer det ha en betydande negativ påverkan på investerarens avkastning på Värdepapperen och en investerare kan förlora hela sin investering.

Samtliga betydande tillgångar för MSBV är åtaganden för (eller värdepapper emitterade av) ett eller flera företag inom Morgan Stanley-Koncernen. Om något av dessa företag inom Morgan Stanley-Koncernen drabbas av förluster avseende någon av dess verksamheter (oavsett om dessa verksamheter är relaterade till MSBV eller inte) kan förmågan hos sådant företag att fullgöra sina åtaganden gentemot MSBV, försämrats och därigenom exponera innehavare av värdepapper emitterade av MSBV mot risk för förlust.

De följande nyckelriskerna påverkar Morgan Stanley, och eftersom Morgan Stanley är det yttersta holdingmoderbolaget för MSBV, påverkar de även MSBV:

- Risker relaterade till Morgan Stanleys finansiella ställning**

Morgan Stanleys verksamhetsresultat kan väsentligen påverkas av marknadsfluktuationer och av globala och ekonomiska händelser och andra faktorer, inklusive förändringar i tillgångsvärdering. Betydande förändringar i räntesatser skulle kunna negativt påverka Morgan Stanleys verksamhetsresultat. Att inneha stora och koncentrerade positioner exponerar Morgan Stanley för stora förluster. Dessa faktorer kan resultera i förluster för en position eller portfölj som ägs av Morgan Stanley.

Morgan Stanley är exponerat för risken att tredje parter som är skuldsatta till företaget inte kommer uppfylla sina åtaganden, såväl som att ett förfall av en stor finansiell institution negativt kan påverka finansiella marknader. Sådana faktorer ger upphov till risken för förlust som uppstår när en låntagare, motpart eller emittent inte uppfyller sina finansiella åtaganden gentemot Morgan Stanley.

Likviditet är essentiellt för Morgan Stanleys verksamhet och Morgan Stanley förlitar sig på externa källor för att finansiera en betydande del av sin verksamhet. Morgan Stanleys lånekostnader och tillgång till skuldkapitalmarknader är beroende av dess kreditbetyg. Morgan Stanley är ett holdingbolag, har ingen affärsverksamhet och är beroende av dess utdelning, distribution och andra betalningar från dess dotterföretag. Vidare har Morgan Stanleys likviditet och finansiella ställning historiskt varit, och kan i framtiden vara, negativt påverkad av amerikanska och internationella marknader och ekonomiska händelser. Som en följd av det föregående, finns det en risk att Morgan Stanley kan vara oförmöget att finansiera sin verksamhet på grund av förlorad tillgång till kapitalmarknaderna eller svårigheter att avyttra sina tillgångar. Risker relaterade till bedrivandet av Morgan Stanleys verksamhet Morgan Stanley är föremål för operationella risker, inklusive misslyckande, avbrott eller annan störning av dess verksamhet eller säkerhetssystem eller de för Morgan Stanleys tredje parter (eller dess tredje parter), såväl som mänskliga misstag eller tjänstefel, vilket negativt kan påverka dess verksamhet eller rykte. En cyberattack, ett informations- eller säkerhetsavbrott, eller teknisk störning för Morgan Stanley eller tredje parter kan negativt påverka Morgan Stanleys förmåga att utöva sin verksamhet, eller hantera sin riskexponering eller resultera i avslöjande eller olaglig användning av personlig, konfidentiell eller proprietär information och i övrigt negativt påverka dess verksamhetsresultat, likviditet och finansiella ställning, såväl som orsaka en skada på dess rykte. Morgan Stanleys riskhanteringsstrategier, modeller och processer kanske inte är till fullo effektiva vad avser lindring av dess riskexponering i alla marknadsmiljöer eller mot alla typer av risk. Juridisk, regulatorisk och regelefterlevnadsrisk Finansbranschen är föremål för omfattande reglering, och förändringar i regleringen kommer att påverka Morgan Stanleys verksamhet. Tillämpningen av regulatoriska krav och strategier i USA eller andra jurisdiktioner för att underlätta en ordnad resolution av stora finansinstitut kan innebära en större risk för förlust för Morgan Stanleys värdepappersinnehavare och bli föremål för andra restriktioner. Dessutom kan Morgan Stanley hindras från att betala utdelning eller vidta andra kapitalåtgärder på grund av regulatoriska begränsningar eller reviderade lagstadgade kapitalkrav. Finansbranschen står inför betydande rättstvister och är föremål för omfattande regulatoriska och brottsbekämpande utredningar, och Morgan Stanley kan drabbas av skador på sitt rykte och juridiska ansvar. Dessutom skulle ett misslyckande att hantera intressekonflikter på lämpligt sätt kunna påverka Morgan Stanleys verksamhet och rykte negativt. Andra risker relaterade till Morgan Stanleys verksamhet Morgan Stanley står inför stark konkurrens från andra finansiella tjänsteföretag, vilket kan leda till prispress som kan påverka dess intäkter och lönsamhet väsentligt negativt. Vidare kan automatiserade handelsmarknader och införandet och tillämpningen av ny teknik påverka Morgan Stanleys verksamhet negativt och kan öka konkurrensen. Morgan Stanley är föremål för ett flertal politiska, ekonomiska, juridiska, skattemässiga, operativa, franchise- och andra risker till följd av sin internationella verksamhet (inklusive risker för eventuell nationalisering, expropriering, priskontroller, kapitalkontroller, valutakontroller, ökade skatter och avgifter, cybersäkerhet, dataöverföring och outsourcingrestriktioner, regulatorisk granskning av användningen av ny teknik, förbud mot vissa typer av utländska aktiviteter och kapitalmarknadsaktiviteter, begränsningar av gränsöverskridande förteckningar och andra restriktiva statliga åtgärder, liksom utbrott av fientligheter eller politisk och statlig instabilitet, inklusive spänningar mellan Kina och USA.) vilket kan påverka dess verksamhet negativt på många sätt. Det kan hända att Morgan Stanley inte fullt ut kan tillvarata det förväntade värdet från förvärv, avyttringar, joint ventures, partnerskap, minoritetsandelar eller strategiska allianser, och vissa förvärv kan utsätta verksamheten för nya eller ökade risker. Tillämpningen av regulatoriska krav och strategier i USA eller andra jurisdiktioner för att underlätta en ordnad resolution av stora finansinstitut kan innebära en större risk för förlust för Morgan Stanleys värdepappersinnehavare och bli föremål för andra restriktioner. Dessutom kan riskerna för klimatförändringar som manifesterar sig som fysiska risker eller omställningsrisker leda till ökade kostnader och risker och påverka Morgan Stanleys verksamhet, verksamheter och kunder negativt.

I sådant fall, avseende respektive Värdepapper, kommer Emittenten att erlagga ett belopp (vilket belopp kan, under vissa omständigheter, vara det rimliga marknadsvärdet för Värdepapperen vilket kan vara mindre än det nominella värdet eller värdet angivet därpå).

Skatteinlösen: Värdepapperen kan lösas in i förtid av skatteskal vid ett belopp (fastställt av Fastställelseagenten, agerandes i god tro och på ett kommersiellt försvarbart sätt) motsvarande det rimliga marknadsvärdet för sådant Värdepapper på sådan dag så som utvald av Fastställelseagenten i god tro och på ett kommersiellt försvarbart sätt.

Uppsägningsgrundande Händelser: Om en Uppsägningsgrundande Händelse inträffar, kan Värdepapperen lösas in före dessas Förfallodag till Inlösenbeloppet vid Förtida Inlösen om Värdepappersinnehavare representerande inte mindre än 25,00 procent av det sammanlagda kapitalbeloppet för Obligationerna ger skriftligt meddelande till Emittenten med förklaring att Värdepapperen är omedelbart förfallna till betalning.

Uppsägningsgrundande Händelser tillämpliga på Värdepapperen är som följer:

- (1) utebliven betalning av något belopp av kapital (inom 30 dagar från förfallodagen) eller något belopp av ränta (inom 30 dagar från förfallodagen) avseende Värdepapperen; och
- (2) Emittenten blir insolvent eller oförmögen att betala sina skulder när dessa förfaller, eller en förvaltare eller likvidator utsedd avseende Emittenten, eller helheten av eller en betydande del av dess företag, tillgångar eller intäkter (förutom när det gäller för att genomföra eller som ett led i genomförandet av en sammanslagning, rekonstruktion eller omorganisering medan den är solvent) eller Emittenten vidtar någon åtgärd för att ingå ett ackord med eller till förmån för sina borgenärer i allmänhet, eller en order ges eller ett effektivt beslut fattas om att Emittenten ska upplösas, likvideras eller upplösas (förutom när det gäller för att genomföra eller som ett led i genomförandet av en sammanslagning, rekonstruktion eller omorganisering medan den är solvent) och sådan order ges eller ett effektivt beslut är fortsatt i kraft och har inte upphävts, återkallats eller åsidosatts under 60 dagar efter det datum då sådan order gavs eller effektivt beslut fattades.

Förtida Inlösenbelopp: Det Förtida Inlösenbeloppet kommer fastställas av Fastställelseagenten som det belopp som en kvalificerad finansiell institution (som är en finansiell institution organiserad under lagarna i någon av följande jurisdiktioner: USA, Europeiska Unionen eller Japan och som uppfyller vissa kreditvärderingskriterier, som Fastställelseagenten utser för detta ändamål vid tidpunkten när det Förtida Inlösenbeloppet ska fastställas) skulle ta ut för att överta samtliga av Emittentens åtaganden under Värdepapperen eller att ikläda sig förpliktelser som skulle få effekten att bevara den ekonomiska motsvarigheten av varje betalning av Emittenten till Värdepappersinnehavarna avseende Värdepapperen.

C.3.4 De mest väsentliga riskfaktorerna som hänför sig till Garanten

De mest väsentliga riskfaktorerna som hänför sig till Morgan Stanley finns angivna i avsnitt B.3 "Vilka nyckelrisker är specifika för Emittenten?" ovan.

C.4 Vilka nyckelrisker är specifika för Värdepapperen?

- Värdepapperen är inte insättningar eller sparkonton och är inte försäkrade av vare sig det amerikanska bolaget för insättningsförsäkring (U.S. Federal deposit insurance corporation), UK Financial Services Compensation Scheme eller något annat regeringsorgan eller -funktion eller insättningsskyddsarrangemang någonstans. Värdepapperen utgör inte heller något åtagande för, och garanteras inte heller, av någon bank.
- Villkoren för Värdepapperen skiljer sig från de för vanliga skuldinstrument eftersom Värdepapperen inte betalar ränta och, vid förfallodagen, och beroende på utvecklingen för Index, kan återbetala mindre än det investerade beloppet eller ingenting.
- Det är omöjligt att förutsäga hur nivån för Indexet kommer att variera över tid. Det historiska utvecklingsvärdet (om något) för Indexet indikerar inte Indexets framtida resultat. Faktorer som volatilitet, räntesatser, Värdepapperens återstående löptid eller valutakurser kommer att påverka det pris som investerare kommer att få om en investerare säljer sina Värdepapper före förfallodagen.
- Index består av en syntetisk portfölj med andra tillgångar, och dess utveckling kan vara beroende av utvecklingen för sådana tillgångar. Avkastning på Värdepapper speglar inte en direktinvestering i underliggande aktier eller andra tillgångar som ingår i index. En förändring av sammansättningen av Index eller nedläggande av ett index kan negativt påverka marknadsvärdet på Värdepapperen. Värdepapperen säljs inte och marknadsförs inte av något index eller av någon sponsor till sådant index. Emittenten och dess närstående är inte ansvariga för åtgärder eller försummelser från sponsorn av ett index, någon information avseende index, utvecklingen för sådant index eller användningen av indexet i samband med Värdepapperen.
- Emittenten kan justera villkoren för Värdepapperen, Garantin och deed of covenant daterad den 17 juli 2013 (så som justerad eller förändrad från en tid till en annan) avseende, bl.a., Värdepapperen utan Värdepappersinnehavarens samtycke om, enligt dess uppfattning, sådana justeringar som inte är betydande till nackdel för Värdepappersinnehavare.

- En investering i Värdepapperen bär risken att Emittenten eller Garanten inte kan uppfylla sina skyldigheter avseende sådana Värdepapper vid förfallodagen eller före Värdepapperets förfallodag. Under vissa omständigheter kan innehavarna förlora hela eller en betydande del av sitt ursprungliga kapital eller investering. - Emittenten har rätt att dra tillbaka erbjudandet av Värdepapperen och avbryta emissionen av Värdepapperen före teckningsperiodens utgång av någon anledning. Skälen för annullering av erbjudandet inkluderar särskilt: (i) ogynnsamma marknadsförhållanden, som bestämts av Emittenten i sitt rimliga gottfinnande (till exempel ökad volatilitet på aktiemarknaden och ökad valutakursvolatilitet); eller (ii) att antalet ansökningar som mottagits vid den tiden inte är tillräckligt, enligt Emittentens åsikt, för att göra en ekonomiskt genomförbar emission. - Såvida inte annat anges i villkoren tillämpliga på Värdepapperen, kommer Värdepapperen inte att dra fördel av någon uppsägnings- eller accelerationsgrund hänförlig till acceleration eller uppsägning av annan skuldsättning för MSBV eller Morgan Stanley (beroende på vad som är tillämpligt). Dessutom, en överträdelse av ett villkorsåtagande av Morgan Stanley, som garant, eller inträffandet av konkurs, insolvens eller rekonstruktion av Morgan Stanley, som garant, utgör inte en uppsägningsgrund avseende Värdepapperen. - Marknadspriset på Värdepapper kan vara mycket volatilt. Vidare, investerare kommer inte att erhålla någon ränta och betalning av kapitalbelopp kan ske vid en annan tidpunkt eller i en annan valuta än förväntat. Indexet kan vara föremål för betydande fluktuationer som kanske inte korrelerar med förändringar i räntesatser, valutor eller andra index. Tidpunkten för förändringar i Indexet kan påverka den faktiska avkastningen för investerarna, även om den genomsnittliga nivån överensstämmer med deras förväntningar. Generellt gäller att ju tidigare förändringen i Indexet är, desto större är effekten på avkastningen. - Referensvärden" är föremål för nyligen genomförda nationella, internationella och andra regleringsreformer, som kan ha en väsentlig påverkan på Värdepapper relaterade till ett "referensvärdes"-index, inklusive i någon av följande omständigheter: (A) (i) vissa "referensvärden" kan avslutas, eller (ii) administratören(erna) för ett "referensvärde" kanske inte får tillstånd/registrering eller kan inte lita på ett av de system som är tillgängliga för icke-EU-referensvärden. Beroende på det specifika "referensvärdet" och de tillämpliga villkoren för Värdepapperen kan förekomsten av en sådan omständighet leda till att ett sådant referensvärde bedöms ersatt med ett alternativt referensvärde valt av Fastställelseagenten, anpassning till villkoren för Värdepapperen eller förtida inlösen av Värdepapperen. Några av ovanstående konsekvenserna kan ha en väsentlig negativ inverkan på värdet på och avkastningen på sådana Värdepapper.
