3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

7. PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT

- | | |
|---|--------------------------------|
| (i) PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT | <i>(Structured Notes only)</i> |
|---|--------------------------------|

The value of the Notes, the payment of an automatic early redemption amount on a relevant automatic early redemption date and the payment of a redemption amount to a Noteholder on the Maturity Date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Notes is linked to the positive or negative performance of the underlying instrument. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of the underlying instrument is a predefined barrier performance. Performance of the underlying instrument can be leveraged.

During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital. The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

Key risks that are specific to the guarantor :

Due to Société Générale's role as guarantor and counterparty to the Issuer's hedging transactions, investors are essentially exposed to Société Générale's credit risk and have no recourse against the Issuer in the event of the Issuer's default.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

The investor bears the risk of total or partial loss of the amount invested at redemption of the Notes on the Maturity Date or the event the Notes is sold by the investor before that date.

Certain exceptional circumstances may have a negative effect on the liquidity of the product. The investor may not be able to sell the product easily or may have to sell it at a price that results in a total or partial loss of the amount invested.

Notes may be early redeemed automatically when the level of the Underlying(s) reaches a certain level. Investors will not benefit from the performance of the Underlying(s) subsequent to such event.

The market value of the Notes depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial loss on the amount initially invested.

Events unrelated to the Underlying(s) (e.g. change in law, including tax law, force majeure, number of securities in circulation) may lead to early redemption of the Notes and thus to total or partial loss of the amount invested.

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of the Underlying(s), and consequently to losses on the amount invested, including in the case of capital protection.

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

WHY IS THIS PROSPECTUS BEING PRODUCED?

This prospectus is drawn up for the purposes of the admission to trading on a regulated market and the public offer of the Notes.

Reasons for the offer and use of proceeds:

The net proceeds from each issue of Notes will be applied for the general financing purposes of the Société

Générale Group, which include making a profit.

Estimated net proceeds: Not Applicable

Underwriting: There is an underwriting agreement on a firm commitment basis with: Société Générale

Interests of the individual and natural persons of the issuance/offer :

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business. Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded. Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

Vilka nyckelrisker är specifika för Garanten?

På grund av Société Générales roll som garant och motpart till Emittentens hedgetransaktioner, är investerare väsentligen exponerade mot Société Générales kreditrisk och har inget krav gentemot Emittenten i händelse av Emittentens fallissemang.

VILKA NYCKELRISKER ÄR SPECIFIKA FÖR VÄRDEPAPPEREN?

Investeraren bär risken för total eller partiell förlust av det belopp som investerats vid inlösen av Obligationerna på förfallodagen eller i händelse av att Obligationerna säljs av investeraren före det datumet.

Produktens likviditet kan påverkas negativt av vissa exceptionella omständigheter. Investerare kanske inte enkelt kan sälja produkten eller måste sälja den till en kurs som resulterar i hel eller delvis förlust av det investerade beloppet.

Obligationer kan automatiskt lösas in i förtid när nivån för de(n) Underliggande når en viss nivå. Investerare kommer inte att dra nytta av de(n) Underliggandes utveckling efter en sådan händelse.

Marknadsvärdet för Obligationerna beror på utvecklingen av marknadsparametrar vid tidpunkten för avslut (kursnivån på de(n) Underliggande, räntesatser, volatilitet och kredit-spreadar) och kan därför resultera i en risk för en total eller delvis förlust av det initialt investerade beloppet.

Händelser orelaterade till de(n) Underliggande (t.ex. lagändringar, inklusive skatterättslig reglering, force majeure, antal värdepapper i cirkulation) kan leda till förtida inlösen av Obligationerna och därmed till en hel eller delvis förlust av det investerade beloppet.

Händelser som påverkar de(n) Underliggande eller hedningstransaktioner kan leda till justeringar, de-indexering, utbyte av de(n) Underliggande och som följd till förlust av investerade belopp, inklusive i händelse av kapitalskydd.

Om valutan för investerarens huvudsakliga aktiviteter skiljer sig från produktens valuta, är investeraren exponerad för valutarisk, särskilt i händelse av valutakontroller, vilket kan minska det investerade beloppet.

Société Générale kommer att säkerställa rollerna som leverantör av hedgeinstrument till Emittenten av Obligationerna, Beräkningsagent för Obligationerna och sponsor av eller rådgivare till underliggande index.

Möjligheten till intressekonflikter mellan de olika rollerna för Société Générale å ena sidan och mellan de för Société Générale i dessa roller och de för Obligationsinnehavarna å andra sidan kan inte uteslutas.

Vidare kan det med tanke på Société Générales bankverksamhet dessutom uppstå konflikter mellan intressen för Société Générale som agerar i dessa avseenden (inklusive affärsförhållanden med emittenterna av de finansiella instrumenten som är underliggande i Obligationerna eller innehav av icke offentlig information i samband med dem) och Obligationsinnehavarna. Slutligen kan aktiviteterna hos Société Générale på det eller de underliggande finansiella instrumenten, på dess egna konto eller för sina kunders räkning, eller etablering av hedgetransaktioner, också påverka priset på dessa instrument och deras likviditet, och sålunda kan vara i konflikt med Obligationsinnehavarnas intressen.
