

MiFID II product governance / Retail investors, professional investors and ECPs – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five (5) categories referred to in item 19 of the Guidelines published by the European Securities and Markets Authority (ESMA) on 3 August 2023, has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, **MiFID II**) MiFID II; (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the determination of the appropriate channels for distribution of the Notes to retail clients has been made and is available on the website <https://regulatory.sgmarkets.com/#/mifid2/emt>, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

UK MiFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (COBS), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**UK MiFIR**); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

Key risks that are specific to the guarantor :

Due to Société Générale's role as guarantor and counterparty to the Issuer's hedging transactions, investors are essentially exposed to Société Générale's credit risk and have no recourse against the Issuer in the event of the Issuer's default.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

The investor bears the risk of total or partial loss of the amount invested at redemption of the Notes on the Maturity Date or the event the Notes is sold by the investor before that date.

Certain exceptional circumstances may have a negative effect on the liquidity of the product. The investor may not be able to sell the product easily or may have to sell it at a price that results in a total or partial loss of the amount invested.

The market value of the Notes depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial loss on the amount initially invested.

Events unrelated to the Underlying(s) (e.g. change in law, including tax law, force majeure, number of securities in circulation) may lead to early redemption of the Notes and thus to total or partial loss of the amount invested.

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of the Underlying(s), or early redemption of the Notes and consequently to losses on the amount invested, including in the case of capital protection.

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

The way the Index sponsor applies the index rules relating to the calculation, and modification of the composition of the Index and the integration of the events affecting its components may affect the value of the index and therefore the value of the Notes.

Investors are exposed to the risk of operational capacity and expertise of the Index Sponsor to ensure the calculation and maintenance of the index according to the index rules in force throughout the life of the Notes.

WHY IS THIS PROSPECTUS BEING PRODUCED?

This prospectus is drawn up for the purposes of the public offer of the Notes.

Reasons for the offer and use of proceeds:

The net proceeds from each issue of Notes will be applied for the general financing purposes of the Société Générale Group, which include making a profit.

Estimated net proceeds: Not Applicable

Interests of the individual and natural persons of the issuance/offer :

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business. Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded. Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

Vilka nyckelrisker är specifika för Garanten?

På grund av Société Générale's roll som garant och motpart till Emittentens hedgetransaktioner, är investerare väsentligen exponerade mot Société Générale's kreditrisk och har inget krav gentemot Emittenten i händelse av Emittentens fallissemang.

VILKA NYCKELRISKER ÄR SPECIFIKA FÖR VÄRDEPAPPEREN?

Investeraren bär risken för total eller partiell förlust av det belopp som investerats vid inlösen av Obligationerna på förfallodagen eller i händelse av att Obligationerna säljs av investeraren före det datumet.

Produktens likviditet kan påverkas negativt av vissa exceptionella omständigheter. Investerare kanske inte enkelt kan sälja produkten eller måste sälja den till en kurs som resulterar i hel eller delvis förlust av det investerade beloppet.

Marknadsvärdet för Obligationerna beror på utvecklingen av marknadsparametrar vid tidpunkten för avslut (kursnivån på de(n) Underliggande, räntesatser, volatilitet och kredit-spreadar) och kan därför resultera i en risk för en total eller delvis förlust av det initialt investerade beloppet.

Händelser orelaterade till den Underliggande (t.ex. lagändringar, inklusive skatterättslig reglering, force majeure, antal värdepapper i cirkulation) kan leda till förtida inlösen av Obligationerna och därmed till en hel eller delvis förlust av det investerade beloppet.

Händelser som påverkar de(n) Underliggande eller hedningstransaktioner kan leda till justeringar, de-indexering, utbyte av de(n) Underliggande, eller förtida inlösen för Obligationerna och som följd till förlust av investerade belopp, inklusive i händelse av kapitalskydd.

Om valutan för investerarens huvudsakliga aktiviteter skiljer sig från produktens valuta, är investeraren exponerad för valutarisk, särskilt i händelse av valutakontroller, vilket kan minska det investerade beloppet.

Sättet på vilket Indexsponsorn tillämpar indexreglerna avseende beräkningen, och förändringar i sammansättningen av Indexet och integrationen av händelser som påverkar dess komponenter kan påverka värdet på indexet och därmed värdet på Obligationerna.

Investerare är exponerade mot risken för Indexsponsorns operationella kapacitet och expertis för att säkerställa beräkningen och underhållet av indexet i enlighet med de tillämpliga indexreglerna över Obligationernas livsperiod.

VARFÖR UPPRÄTTAS DETTA PROSPEKT?

Detta prospekt har upprättats för att kunna göra ett publikt erbjudande av Obligationerna.

Skäl för erbjudandet och användning av intäkter: Nettointäkterna från varje emission av Obligationerna kommer användas för generella finansieringsändamål av Société Générale-Koncernen, vilket inkluderar att göra vinst.**Förväntade nettointäkter:** Ej tillämpligt**Fast åtagande att placera värdepapper:** Det finns ett avtal med en marknadsgarant: Société Générale**Betydande intressen för individuella och fysiska personer i emissionen/erbjudandet:**

Med förbehåll för eventuella avgifter som ska betalas till Återförsäljaren, och såvitt Emittenten känner till, har ingen person som är inblandad i emissionen av Obligationerna ett betydande intresse i erbjudandet.

Återförsäljaren och dess dotterföretag har engagerat och kan i framtiden bedriva investeringsbanker och / eller kommersiella banktransaktioner med och kan utföra andra tjänster för Emittenten och dess dotterföretag i den ordinarie verksamheten.

Société Générale kommer att säkerställa rollerna som leverantör av hedgeinstrument till Emittenten av Obligationerna, Beräkningsagent för Obligationerna och sponsor av eller rådgivare till underliggande index.

Möjligheten till intressekonflikter mellan de olika rollerna för Société Générale å ena sidan och mellan de för Société Générale i dessa roller och de för Obligationsinnehavarna å andra sidan kan inte uteslutas.

Vidare kan det med tanke på Société Générales bankverksamhet dessutom uppstå konflikter mellan intressen för Société Générale som agerar i dessa avseenden (inklusive affärsförhållanden med emittenterna av de finansiella instrumenten som är underliggande i Obligationerna eller innehav av icke offentlig information i samband med dem) och Obligationsinnehavarna. Slutligen kan aktiviteterna hos Société Générale på det eller de underliggande finansiella instrumenten, på dess egna konto eller för sina kunders räkning, eller etablering av hedgetransaktioner, också påverka priset på dessa instrument och deras likviditet, och sålunda kan vara i konflikt med Obligationsinnehavarnas intressen.
