3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

4. REASONS FOR THE OFFER AND USE OF PROCEEDS

7. PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT**(i) PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT (*Structured Notes only*)**

The value of the Notes and the payment of a redemption amount to a Noteholder on the Maturity Date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Notes is linked to the positive or negative performance of the underlying instrument. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of the underlying instrument is a predefined barrier performance. Performance of the underlying instrument can be leveraged, and/or averaged.

During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital. The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

Key risks that are specific to the guarantor :

Due to Société Générale's role as guarantor and counterparty to the Issuer's hedging transactions, investors are essentially exposed to Société Générale's credit risk and have no recourse against the Issuer in the event of the Issuer's default.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

The investor bears the risk of total or partial loss of the amount invested at redemption of the Notes on the Maturity Date or the event the Notes is sold by the investor before that date.

Certain exceptional circumstances may have a negative effect on the liquidity of the product. The investor may not be able to sell the product easily or may have to sell it at a price that results in a total or partial loss of the amount invested.

The market value of the Notes depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial

loss on the amount initially invested.

Events unrelated to the Underlying(s) (e.g. change in law, including tax law, force majeure, number of securities in circulation) may lead to early redemption of the Notes and thus to total or partial loss of the amount invested.

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of the Underlying(s), or early redemption of the Notes and consequently to losses on the amount invested, including in the case of capital protection.

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

The way the Index sponsor applies the index rules relating to the calculation, and modification of the composition of the Index and the integration of the events affecting its components may affect the value of the index and therefore the value of the Notes.

Investors are exposed to the risk of operational capacity and expertise of the Index Sponsor to ensure the calculation and maintenance of the index according to the index rules in force throughout the life of the Notes.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business. Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded. Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

Det underliggande indexet består av ledande svenska blue chip-bolag som uppfyller specifika hållbarhetskrav. Det följer en net total return-metodik (NTR), vilket innebär att utdelningar återinvesteras efter avdrag för tillämpliga källskatter.

Indexet inkluderar en fast decrement på 5 % per år, som dras löpande på daglig basis. Denna mekanism minskar indexets utveckling över tid med en konstant takt, oavsett marknadsförhållanden, och används vanligtvis i strukturerade produkter för att återspegla finansieringskostnader, avgifter eller avkastningsantaganden.

Vilka nyckelrisker är specifika för Garanten?

På grund av Société Générale's roll som garant och motpart till Emittentens hedgetransaktioner, är investerare väsentligen exponerade mot Société Générale's kreditrisk och har inget krav gentemot Emittenten i händelse av Emittentens fallissemang.

VILKA NYCKELRISKER ÄR SPECIFIKA FÖR VÄRDEPAPPEREN?

Investeraren bär risken för total eller partiell förlust av det belopp som investerats vid inlösen av Obligationerna på förfallodagen eller i händelse av att Obligationerna säljs av investeraren före det datumet.

Produktens likviditet kan påverkas negativt av vissa exceptionella omständigheter. Investerare kanske inte enkelt kan sälja produkten eller måste sälja den till en kurs som resulterar i hel eller delvis förlust av det investerade beloppet.

Marknadsvärdet för Obligationerna beror på utvecklingen av marknadsparametrar vid tidpunkten för avslut (kursnivån på de(n) Underliggande, räntesatser, volatilitet och kredit-spreadar) och kan därför resultera i en risk för en total eller delvis förlust av det initialt investerade beloppet.

Händelser orelaterade till den Underliggande (t.ex. lagändringar, inklusive skatterättslig reglering, force majeure, antal värdepapper i cirkulation) kan leda till förtida inlösen av Obligationerna och därmed till en hel eller delvis förlust av det investerade beloppet.

Händelser som påverkar de(n) Underliggande eller hedningstransaktioner kan leda till justeringar, de-indexering, utbyte av de(n) Underliggande, eller förtida inlösen för Obligationerna och som följd till förlust av investerade belopp, inklusive i händelse av kapitalskydd.

Om valutan för investerarens huvudsakliga aktiviteter skiljer sig från produktens valuta, är investeraren exponerad för valutarisk, särskilt i händelse av valutakontroller, vilket kan minska det investerade beloppet.

Sättet på vilket Indexsponsorn tillämpar indexreglerna avseende beräkningen, och förändringar i sammansättningen av Indexet och integrationen av händelser som påverkar dess komponenter kan påverka värdet på indexet och därmed värdet på Obligationerna.

Investerare är exponerade mot risken för Indexsponsorns operationella kapacitet och expertis för att säkerställa beräkningen och underhållet av indexet i enlighet med de tillämpliga indexreglerna över Obligationernas livsspann.

VARFÖR UPPRÄTTAS DETTA PROSPEKT?

Detta prospekt har upprättats för att kunna möjliggöra upptagande till handel på en reglerad marknad och göra ett publikt erbjudande av Obligationerna.

Skäl för erbjudandet och användning av intäkter: Obligationerna utgör "Gröna Obligationer": emittenten kommer att använda ett belopp motsvarande det utestående sammanlagda nominella beloppet för Obligationerna för att finansiera och/eller refinansiera, helt eller delvis, Godkända Tillgångar i de Godkända Gröna Kategorierna, i enlighet med Société Générale's Ramverk för Hållbar Finansiering ("Ramverket").

Ramverket finns tillgängligt på sidan Debt Investors på Société Générale's hemsida: <https://www.societegenerale.com/sites/default/files/documents/2025-09/sustainable-financing-framework-2025.pdf>

Betydande intressen för individuella och fysiska personer i emissionen/erbjudandet:

Med förbehåll för eventuella avgifter som ska betalas till Återförsäljaren, och såvitt Emittenten känner till, har ingen person som är inblandad i emissionen av Obligationerna ett betydande intresse i erbjudandet.

Återförsäljaren och dess dotterföretag har engagerat och kan i framtiden bedriva investeringsbanker och / eller kommersiella banktransaktioner med och kan utföra andra tjänster för Emittenten och dess dotterföretag i den ordinarie verksamheten.

Société Générale kommer att säkerställa rollerna som leverantör av hedgeinstrument till Emittenten av

Obligationerna, Beräkningsagent för Obligationerna och sponsor av eller rådgivare till underliggande index. Möjligheten till intressekonflikter mellan de olika rollerna för Société Générale å ena sidan och mellan de för Société Générale i dessa roller och de för Obligationsinnehavarna å andra sidan kan inte uteslutas. Vidare kan det med tanke på Société Générale's bankverksamhet dessutom uppstå konflikter mellan intressen för Société Générale som agerar i dessa avseenden (inklusive affärsförhållanden med emittenterna av de finansiella instrumenten som är underliggande i Obligationerna eller innehav av icke offentlig information i samband med dem) och Obligationsinnehavarna. Slutligen kan aktiviteterna hos Société Générale på det eller de underliggande finansiella instrumenten, på dess egna konto eller för sina kunders räkning, eller etablering av hedgetransaktioner, också påverka priset på dessa instrument och deras likviditet, och sålunda kan vara i konflikt med Obligationsinnehavarnas intressen.
